## GRESHAM LOCALS

Claude Stockton, who underwent the amputation of a toe on the left foot two weeks ago today, is now able to get around again with the aid of crutches. Years ago the cords of his foot had been cut and had not healed properly, causing the middle toe to lap over onto the next one. This had caused him considerable difficulty and recently he decided on having the toe removed which was done with the aid of a local anaesthetic. While he suffered considerably for several days following the removal of the member, he is now much relieved and getting along well. The operation was performed in Gresham.

Isn't he worth it? Of course he is!

And it isn't hard. He'll begin helping too, before long, if you work and plan together for a definite end. By spreading the college expenses over a long period, the dream of every American parent—to educate his children—can be realized.

During the time he has worked in Gresham he has resided in Portland with his family. Mr. Werst feels deeply appreciative of the cooperation given him during the period of his business relations with Hessel brothers and he is leaving their employ with best wishes for their future success.
