GOLDEN WEDDING HELD, "BRIDE" KIDNAPPED

Mr. and Mrs. Samuel Bacon, who reside near Pleasant Home, celebrated the 50th anniversary of their marriage Sunday by the presence of about 125 guests who gathered to witness the performing of the marriage ceremony for the second time and to share in the pleasures of the occasion. Miss Mary Wilson became the bride of Samuel Bacon at an early age, that of 12 years, at Vancouver, Washington. Her parents, who were pioneers, took up a homestead where the present reservoir at Bull Run is now located, and here Mary was born.

Samuel Bacon came to Oregon with his parents in 1871 and five years later was united in marriage with his youthful sweetheart. To this union were born four children, Mrs. Elizabeth Hagen, and Frank and Wesley Bacon, of the Bull Run locality and Mrs. Nellie Ahlson, of Portland.

After a splendid dinner which was served cafeteria style, the time was spent in reminiscences. John Revenue, Sandy's oldest pioneer, talked interestingly, and several musical numbers followed. Among other things Mr. Revenue humorously recalled the early life of Mr. Bacon. He said he could remember the time when Sam was too poor to buy a pair of suspenders and on one "gallus" was placed a great deal of responsibility. In memory of that occasion he presented Mr. Bacon with a nice pair of suspenders. Also he brought back the years when Mrs. Bacon was a bare-foot lassie at the little log schoolhouse where they all attended school and to compensate her feelings for being so unceremoniously "bawled" out in company, he presented her with a beautiful pair of silk hose.

But the day came near ending in tragedy, for just before the ceremony, which was to be performed by the Rev. E. W. Withnell, Clarence Cathey stole the bride. He spirited her away and she simply couldn't be found. At last Mr. Bacon without a smile among the wrinkles of his 77 years, shouldered a shotgun and left the room. It is unnecessary to say that he returned with his "bride."

Guests were present from Portland, Sandy, Bull Run and Gresham, also a number from a distance. Among the latter were Mrs. Maggie Mattee, of The Dalles, a sister of Mrs. Bacon, also Mr. Mattee, the Boyer family, from Jefferson, Oregon, W. M. Miller, of El Paso, Texas, and Roy Munz, of Salinas, California.

The man was ordered to leave that part of the lake which he immediately did.

She wore a veil of tulle caught with lilies of the valley and carried a shower bouquet of pink and white sweet peas. The bride was given away by her father George Cook. Her bridesmaid was Miss Alice Richey of Pleasant Valley who wore a dress of peach colored crepe de chine and carried pink gladiolas. The best man was Torrence Martin of Portland. Miss Ankcorn's sister is a student at the University of Oregon summer school.

COLUMBIA HEIGHTS

Lack of rain makes the crop outlook in this locality rather discouraging. Black rust has killed tomatoes, squashes, beets and beans, and the early potatoes have suffered some from blight. Corn is in fine condition. Those who have gone heavily into cauliflower growing are hoping for rain, as the ground is very dry. Hay harvest is almost over and is a normal crop, though unusually early this year. Grain is ripening fast and looks fair.

Many family reunions have taken place in this vicinity recently. Good roads and the automobiles are the main factors in bringing together relatives and close friends, some from a distance and many who had not met for years. One such happy gathering included Mr. and Mrs. C. W. Rasmussen of Bellingham, Washington, Mr. and Mrs. H. W. Rasmussen of Tacoma, Mr. and Mrs. R. P. Rasmussen of The Dalles, Mr. and Mrs. P. Andersen and Miss Alice Rasmussen, who held a picnic at the Sandy river one day last week at the summer home of R. P. Rasmussen. The three brothers, whose ages are 67, 65 and 62, took a swim in the Sandy, a pleasure which they had not indulged in together since their boyhood days back in Denmark.

Dr. H. C. Johnson, veterinarian of Gresham, is busy in this vicinity vaccinating cattle against a fatal disease known as Hemorrhagic Septicemia. Several ranches have lost from one to three milk cows, and one man near Boring is said to have lost his entire herd of 25 milkers. It is hoped that the quick action to prevent the trouble will be beneficial.

Why Be Satisfied With Less Than Your Motor's Full Power

Full power as well as satisfactory and economical operation depends upon the condition of a motor's piston equipment—piston rings, pistons and pins. When worn they need replacement.

A worn motor means a larger gas and oil consumption and in these days that is no small item.

You have every right to expect the utmost from your automobile, even though the speedometer does show a large mileage. A thorough re-conditioning will bring back all the old-time pep and power and lower your gas and oil consumption.

WOMAN AND CHILDREN MAKING LONG TREK

They formerly lived in California a brave little mother, a widow, Mrs. Luella Strader, but today she is a wayfarer in Oregon with her two small sons, Philip aged 9 and Wallace 6 years, unless a kindly disposed truck driver has picked her and her small family up and borne them on their way to Washington.

Mrs. Strader and children spent Saturday night at the Larsen auto camp and Sunday morning, with their worldly belongings packed on a small express wagon, headed for the Columbia river highway via Parkrose to Pacific highway and thence to Washington. Mrs. Strader doesn't seem to know just where she will stop on her hiking trip, but wherever she can obtain employment in the orchards she will park and work for a while.

They were given a ride from California to Eugene, but have walked a good share of the distance from Eugene to Gresham. The mother says her health is poor and she is doing the walking partly because of this fact. She has an older son in the navy yard at Bremerton and hopes to see him later. The party attracts considerable attention as they proceed slowly along drawing their tent and furniture. She is a cheerful little soul and doesn't seem to be worrying about the wherewithal to buy the winter's fuel and other necessities.
