**A clever idea!**

Three of the new Aluminex utensils—each of them a necessity in every kitchen. (1) Sauce-pot. (2) Collander. (3) Mixing Bowl. But now see what happens when you start using them in combination. Your sauce-pot with its dome-shaped cover and heat-proof knob is an excellent self-basting double roaster. Used with the collander it becomes a steamer in which meat or fowl can be boiled while several vegetables can at the same time be steamed. If desired this can be done in a heat-controlled oven. Used with the mixing bowl, it gives you a wonderful double-boiler of unusually large water capacity—just the thing for rice and other slow-cooking cereals. The beautiful new cover can also be used as a separate dish, handy as a peeling tray or for other things. These convenient combination uses are possible only with
