

GRESHAM OUTLOOK

Published every Tuesday and Friday at Gresham, Oregon, by the Outlook Publishing Co., H. L. St. Clair, Editor and Manager.

One year, \$1.50, six months, 85c, three months, 50c. Trial subscription, 50c. Combination rates with all the Portland Dailies.

ADVERTISING Rates reasonable. Our representative will call.

Entered as second-class matter March 2, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

We have heard some say they are going to vote No on all the initiative and referendum measures on the November 2 ballot. That isn't necessary or advisable but it might be better to vote against all measures than to vote for some.

After an existence of fifteen and one-half years, during all of which it has been a twice-a-week, six-column newspaper, the Gresham Outlook, published in the neighboring city of Gresham by H. L. St. Clair, blossomed out last week as a seven-column paper. The addition of this column to each of its four pages gives increased room for news and advertising and an improved display for both. The Outlook and its publishers are to be congratulated on the excellence of the paper, its steady, wholesome growth and the increasing prestige it is enjoying.—The Oregonian.

TAXATION GROWS HEAVIER.

Paul Shoup, executive vice president of the Southern Pacific company, in a recent address before the Bankers' association convention, said in part:

"In 1900 the railroads of the United States paid in taxes one-tenth of their net income; in 1924, one-third. The railroad with which I am associated had to pay substantially the same amount in taxes last year as it was able out of its remaining earnings to pay as dividends to its stockholders. In the United States and in this state the average tax per family paid to all forms of government is now \$400 annually. In this state, which is not different from many others, our bonded debt has increased 15 fold in the last 16 years. Our counties have multiplied their debts 7 1/2 times and the debts for cities are three times as great and constantly growing. Some time this debt of six hundred fifty million dollars will have to be paid, but a more serious difficulty faces us in its constant growth. The taxes paid in the United States represent an annual contribution of 3 per cent upon the value of all the property in this country.

"I recognize fully the greater number of community activities that have had to come under the form of government with the growth of population, particularly in cities, and the closer associations, political, social and business among our people. But we find that our tax contributions, the number of dollars diverted from their normal course for taxation purposes, have been for many years past increasing out of proportion to the growth of the saved wealth of the nation and out of proportion to the national income."

This Week

By Arthur Brisbane

DRIVING OUT LABOR. RUSSIA'S FRIENDSHIP. HUNTING THE FLEA. POUT, SNIFF, LOOK ALIVE.

Mr. Green, able, conservative and respected head of the American Federation of Labor, was invited to speak before the Young Men's Christian Associations in Detroit, then told that his speech could not be delivered in that institution. Labor leaders were asked to speak from various Detroit pulpits, then told the churches did not want them.

There may be good reasons for these sudden changes. But Christ, who drove the money changers from the Temple, might be surprised to see his modern representatives driving laboring men from the pulpits.

It looks, according to the union men, as though money changers were "on top" once more.

In a little while Queen Marie of Rumania, with her pretty daughter will be dining at the White House. The Queen will be able to tell her husband that she met one American that did not insist on talking about himself. H. G. Wells says that is our trouble, you know.

If the Queen will take a sheet of paper as big as a playing card she will be able to write on it all that the President will have to say, beyond politely answering direct questions.

But when the interview is over the President will know a good deal about Rumania. He believes in listening, and that's one reason why he is President.

Professor Jerome Davis, of Yale, reports an interesting talk with Stalin, the real ruler in

Byrd Touring U.S. in Polar Plane

Many cities and states will have the opportunity to see the history-making plane that Commander Byrd used to fly over the North Pole. Floyd Bennett will accompany Byrd on the trip, which is backed by the Guggenheim Aviation Fund.

Russia. Stalin says Russia is willing to pay the money that foolish American bankers lent to Kerensky. Stalin really should do nothing of the kind. Those childish bankers grabbing at usurious interest rates and discounts, ought to digest that lesson.

They are now lending billions of the American people's money to various concerns in Europe. Many of those billions will never come back.

However, that's another story. The important point made by Stalin is that it might pay the United States to be friendly with Russia. Stalin said, "Russia now needs the United States. Possibly the day might come when the United States might need Russia's friendship."

The Pan-American health conference declares war on the bubonic plague flea, from the Arctic to the Antarctic.

"This means killing rats, ground squirrels, flea bearing creatures of all sorts. Samples of fleas captured will be sent in for identification."

Nothing permanent, however, will be done until man completes his conquest of the globe by removing from it, mercifully, all animal life other than his own.

The gaping crocodile from whose gums and tongue the tsetse fly extracts the germs of sleeping sickness, must go, also dear little pussy, that carries diphtheria germs in its fur to the little girl's face.

The latest beauty cult, must come here. It says: "Work all the muscles of your face, keep young, retain your alert appearance. Pout your lips to make them handsome and full. Roll your eyes frequently and SNIFF. Sniff violently, forming wrinkled ridges on the bridge of the nose. Move your eyebrows up and down. Only a dead face, with no muscular action in it, becomes an old face."

That advice is taken literally by inhabitants of the monkey cage. They do all that the beauty cult suggests. Our ancestors, ape-like, did the same until language was invented. As men became civilized they used words instead of gestures and twitching faces.

A man sneering still uncovers his canine tooth, getting it ready to bite without cutting his lip, as do the baboon and wolf. But the calm face is the higher type. Compare the Venus of Milo and stop.

BARGAINS.

Christmas Greeting cards in lots of 25, complete with envelope to match and your name printed or engraved on cards, as low as \$2.50, 50 for \$3.75. Other cards at \$3.50, \$4.25 and \$5.00 for 25 complete. GRESHAM OUTLOOK, Phone 1561.

SEASON OF 1926 GREETINGS CARDS

The exchange of Greeting Cards at the Holiday Season has rightly become a universal custom because it provides a graceful way of acknowledging friendships.

At your suggestion our salesman will call on you with samples of our beautiful lines of Greeting Cards.

The variety in style and price will be of convenience to many.

It is well to order at once while lines are complete for the holidays approach various lines will be closed out. Call here now and look over the samples.

SMITH-HUGHES DEPARTMENT HAS HUNTLER IN FENDALL.

The Smith-Hughes department in the Gresham Union high has a live man in charge in the person of Mr. Fendall. We quote from The News-Item:

"The very satisfactory conditions in this old department, now starting on its ninth year, affords genuine satisfaction. This school has had its ups and downs, but with the opening of this year the graph has reached its highest point. New territory has been added to the union high school, with more than half a hundred new students. Many of these naturally came into agriculture, with the result that a fine type of boys form the makeup of the three classes on the roll. At last reports there were 35 enrolled. Fendall has been checking up and completing the student records, running back over the years since the introduction of the work. Much of this research was accomplished during the summer, scouting for new students, and on project visitation tours.

"In addition to his class work, Fendall has assumed the responsibility of driving one of the new school buses, and to make this chore easier, moved his family out near the starting point, some nine miles from town. This will reduce the time devoted to playing with the baby, but it offers extra enrollment, which is something never sneezed at by Smith-Hughes men."

The Oregon City Enterprise is 60 years old this month and this leading daily (and weekly) of the growing city by the falls of the Willamette is being congratulated on its long and successful life. The Outlook extends sincere congratulations and wishes for many happy returns.
