

GRESHAM LOCALS

Work is progressing on the new 7-room house which Dr. J. G. Sture is having erected on his three-lot tract facing Ava avenue. The house is of the bungalow type with full basement and two stories in height. It will be equipped with two baths and is modern in every detail. Ed. Staffenson, a brother of Mrs. Sture, has the contract for the building.

To attain a place in the roll of honor a student must have a standing of 90 per cent in four subjects and the citizenship must also reach 90 per cent.

Miller have received a letter from their daughter, Mrs. Lillian Young, who resides in Oakland, California, in which she graphically described the earthquake of last Friday which twice routed her and her son from their beds and shook dishes and other articles to the floor. They ran to the street and there found thousands of people as badly frightened as themselves and fearful of what was coming next. Mr. Miller had contemplated a trade of Oregon property for some in California but now he has concluded that Oregon is good enough for him and he is of the opinion that his daughter and grandson, who recently returned from Gresham to their California home, will soon be retracing their steps.

Meet Sarah Ann Duplicate
YOU may never see Sarah Ann, though perhaps you might. Sarah Ann was pronounced the world's greatest Holstein last year—the All-American Aged Cow. And where did she appear? Why, at the Pacific International Livestock Exposition in Portland—where many, many world's champions appear!

Sarah may be there again this year, October 30-November 6. But, if not, you will see thousands of the finest bred, best producing dairy stock in America—for they come from the four corners of the continent to be at this—the greatest combined livestock exposition now known in the world. Also come the finest Beef Cattle, Horses, Hogs, Sheep, Goats and Foxes. Then there's the famous Horse Show and Land, Industrial and Dairy Products Exposition—all housed in the tremendous 10-acre exposition building.

It is our sincere belief that there is not a farmer in this community who can afford to miss, or who will fail to profit by this opportunity.

Furnace Comfort at Stove Cost

An EASTMAN Sibloco FURNACE will give you furnace comfort at stove cost, not only in original cost but in the amount of fuel consumed. They are built on the principle of completely separating the cold air intake from the warm air pipe.

Eastman Sibloco Furnaces can be had in either pipe or pipeless units.

There is a model for any size of home and the combination of low cost, compactness and marvelous heating propensities makes the Eastman furnace the most popular on the market today.

Not one penny has been spent for surplus bulk or ornamental castings which raise the cost of a furnace, but add nothing in the way of heating efficiency, hence you can get one of these furnaces installed in your home as low as

\$85

If you are contemplating building or installing a furnace come in and let us explain other reasons why the Sibloco is the most practical.
