

### Fairview Will Elect City Ticket Nov. 2

Fairview is presenting a full ticket to be voted on at the general municipal election next Tuesday. There are two aspirants for the office of mayor, E. E. Heslin and W. H. Cook. Mr. Heslin is completing his first two-year term and is a candidate for re-election. He has been a member of the city council ever since the incorporation of the town.

G. P. Lumsden is a candidate to succeed himself for the office of city recorder. He is well known and has rendered most satisfactory service for the past two years. John Moller has no opponent for city treasurer. He has been a Fairview resident practically all his life and deserves the vote of his townsmen.

James Burlingame is a candidate for re-election as city marshal. His opponent is G. O. Dolph. Five councilmen are to be elected Tuesday, three for 4-year terms and two for 2-year terms. The two-year men, J. Mahaffey and George Shaw, are up for re-election and two of the four-year terms, John Jonas and D. W. McKay, have served on the council for the past 12 years. C. N. Buckner, the third candidate for the four-year term, was appointed to fill the unexpired portion of the late Roy Stone's term.

### FAIRVIEW

"A Strange Request" will be the theme of the sermon Sunday morning at 11 o'clock at the Smith Memorial Presbyterian church by the pastor, the Rev. E. R. D. Hollensted. Sunday school will begin promptly at 10 o'clock.

The Woman's society of the Smith Memorial church held an all-day work meeting Thursday at the home of Mrs. E. R. D. Hollensted. A dozen ladies were present and practically finished the sewing for the sale to be held on Friday, November 19 at the city hall. Committees were also appointed for the Fairview fair, the name given this year to the annual bazaar. There will be a sewing department, art department, side shows, candy booths, a restaurant and a good snappy program.

**Helping Nature Fight Diphtheria.**  
A state wide campaign to wipe out diphtheria began in Oregon October 1st. The State Board of Health urges every physician to use diphtheria antitoxin and toxin-antitoxin.

Diphtheria germs when they get into the throat of a person who is in condition to take diphtheria, develop a powerful poison called toxin. It goes into the blood stream and is carried all over the body. Perhaps at some time you have spilled a strong acid on your hand. Unless it was removed or neutralized immediately, it destroyed some of your skin, and left you with a sore hand. If diphtheria poison is of sufficient quantity, and it comes in contact with the nerves and other vital organs of the body, its effect is comparable with that of the acid on the skin. It was this destruction of nerve structure that accounted for the paralysis which so often followed an attack of diphtheria in the days before antitoxin came into general use.

If a child gets diphtheria and is not given antitoxin, one of two things happen. Either he dies from the effects of the poison or toxin if the attack is a severe one, or if it is mild, he recovers readily, but with his vital organs more or less damaged. When he recovers it means that nature in its efforts to counteract the effects of the poison, has gradually produced in his blood an antidote called antitoxin which combines with the poison or toxin and makes it inert, very much as the application of soda or some other alkali would neutralize the acid on your hand, if it has been applied at once. Following recovery this antitoxin remains in the blood for years and while it remains, it protects against further attacks of diphtheria, or in other words, the child is then immune to diphtheria.

However, when one attack of the disease protects the child against another, it is a highly dangerous procedure. Death or serious damage may result before nature has time to finish the job. Fortunately we no longer have to wait. We have learned how to assist nature and protect the child so that he will not take the disease.

Diphtheria today is known to be both curable and preventable. This seems almost incredible to many people for only 39 years ago death claimed more than one-third of those attacked by the disease, as the effective protective measures were unknown. This advance in medical science stands as one of the major medical triumphs of all times.

## Every Forward Looking Citizen Should Fight for Oregon and Its Development

By Bruce Dennis,

Author of the Dennis Resolution.

When the people of Oregon enacted a state income tax in 1923 they did so because they believed it was just and right. They believed it would reduce taxes.

At that time they had plenty of theory and few facts to guide them.

They repeated that law in 1924 because it was a proved hard times breeder. It cost the people of Oregon the staggering total of \$40,000,000 to learn that economic conditions absolutely beyond their control are such in Oregon that a state income tax drives out industries, keeps others from coming in, reduces payrolls, makes it harder to obtain farm loans, and strikes at every home in country, village, town and city.

But our state is again in turmoil because a determined effort is being made to force practically this same law upon the state this year. Our people are being asked to ignore plain fundamental economic facts. They are being asked to enact a law on a "guess" that it will bring good times now, when painstaking, honest investigation proved that the former tax did drive out industries, capital, jobs, and millions of taxable wealth from Oregon, and a new state income tax will do it again.

Oregon is full of meritorious projects that should be developed. Big public improvements are necessary to open up our state, to bring the farms closer to their markets and cities closer to their bases of supplies. Wealth untold lies idle in natural resources awaiting the magic touch of development capital to bring it to the tax rolls, to create new payrolls, new activities and better livelihood for our people.

Since the last income tax law was repealed millions of dollars have been loaned in Oregon by outside financial concerns, at low rates, on long time, and with repayment privileges never known to Oregon before. If a new income tax law is enacted, and this discrimination aimed directly at these investors, rates will go up, much of the unloaned funds will be withdrawn, and our people will again face the inescapable fact Oregon needs capital, but capital does not need Oregon.

This is no time for prattle. It is high time for plain speaking, straight thinking and recognition of the hard economic fact that Oregon's farms, her industries, and her citizens desperately need capital, and that the only place we can get it is from outside the state.

We can drive capital out, but we cannot force it to come in unless we make it advantageous for it to do so. Oregon, ninth state in area, is relatively insignificant economically. 119,000,000 of America's 120,000,000 people reside outside of Oregon. Let us remember the industrial city of Detroit has over 100,000 more people than the state of Oregon, with its 96,000 square miles. Let us remember that 782,256 people here didn't make enough to file income tax returns, and that only 311 people in the entire state had earnings in excess of \$10,000; that of Oregon's 5000 corporations only 1073 made enough profit to file taxable reports, that 478 made less than \$5,000 and only 183 over \$20,000, including all public utilities, lumber mills, flour mills, factories, railroads, and other industries.

We have 55,157 farms, one to every 15 persons, 2500 industries, one to each 330 persons. What would one industrial center like Detroit mean to our farms, our home owners, our workers, our state? Oregon wants them, Oregon wants capital and wants to go ahead. Oregon wants to avert economic disaster, and instead wants to offer capital, new people, new industry, opportunity to help us grow.

That is what the Dennis Resolution is for. It guarantees that no state income tax can be enacted to discriminate against development and progress before 1940. It guarantees to every Oregon family that the state will not tax its accumulations when the bread winner dies. As a prosperity making measure it deserves the support of every forward looking citizen.

### More School Buildings Proposed Bond Reduction Possible

As the taxpayers of our 18 grant land counties realize the great relief and how large is the sum coming to them through the enactment of the O. & C. Bill, they are planning new school buildings, and an increase and betterment in the teaching staff.

Eight millions of dollars turned loose in Oregon this fall is almost unbelievable, but this is a fact, thanks to the efforts of Robert N. Stanfield. In addition to this immediate cash payment, there is a tax reduction for all time of 25 per cent. One has only to ask any school director of these counties to realize to the full the wonderful relief from burdensome taxes the enactment of the O. & C. bill has permitted. This tax relief was only possible by the holding of the Chairmanship of the Public Lands by Senator Stanfield. The further relief to be had through the Forest Reserve Lands can only be obtained by re-electing Robert N. Stanfield as Senator for Oregon.

Senator Stanfield proposes to apply this principle to the Forest Reserves, which will give every taxpayer in Oregon an additional reduction of from 25% to 40%. Or in other words will give Oregon an increased revenue of from 1 to 15 MILLIONS of dollars yearly, and this all time to come. With this substantial reduction in our taxes, and bonded indebtedness, we may look for the immediate coming of Eastern capital and population, and an increase in the value of our own property.

This additional revenue could eventually permit the repeal of all automobile, road and gasoline tax.

You were denied knowledge of legislation proposed by Senator Stanfield, because the Morning Oregonian has and will sacrifice your best interests in order to seek its vengeance on anyone daring to oppose its own aggrandizement. The people of Oregon are a free people, owing their allegiance to their God, their country and themselves, and they will not submit to be ordered and dictated to by any selfish interest, no matter how powerful that interest or clique may be.

We who have been making homes in Oregon, establishing industries and payrolls, or working for wages, know how hard the struggle has been to make ends meet. There is only one hope for us, and that is relief from the excessive burden of taxation. Robert N. Stanfield, the present Republican Senator, whose advice and counsel is sought and respected by Senators and President Coolidge alike, has been the only representative Oregon ever had who has been able to actually reduce taxes. He is the only man who can continue to do so, as he and he alone can retain for Oregon the powerful Chairmanship of Public Lands.

Therefore, if you want to have the full benefit of reduction in taxation, and bring the full development of Oregon to pass within your lifetime, you must forget party or personal likes and whims and retain Senator Stanfield. Oregon can suffer no greater disaster than the loss of the Chairmanship of the Public Lands Committee.
