HONORED CITIZEN PASSES.

To have lived almost a full century through all the vicissitudes of this changeful world is a marked distinction.

To have lived in this immediate locality nearly 75 years is an added distinction.

To have been a pioneer, settling on untouched, heavily wooded land, when Portland was a mere village of a few hundred souls, and to have labored strenuously but joyously to prepare the way for an advancing civilization, entitles the person to honorable distinction.

To have been withal and always, as long as physical strength permitted, an active and neighborly citizen, taking a helpful part in the uplifting affairs of the growing community, merits the highest respect on the part of all who have become possessors of the inheritance thus achieved.

This was Grandma Linnemann.

Practically all citizens, old and young, of this locality, are the "children" who now on the event of her passing rise up and call her memory blessed.

Such a life should, and in her case does, leave monments to the memory of the one who has lived so long and so eventfully. These Monuments are some of them physical, that may in time be forgotten, but most of them spiritual which will long endure.

Few of us count on living as long beyond the "allotted time" as did Grandma Linnemann, but all can and should strive to live as well.

In her active life she was unselfish, neighborly and helpful to all within her reach. In her declining years tender hands of her daughter, granddaughter and neighbors administered to her needs, both physical and spiritual, so that in her life and death the comforting scriptural promises were truly fulfilled.

"Trust in the Lord and do good, so shalt thou dwell in the land and verily thou shalt be fed."

"Mark the perfect man and behold the upright, for the end of that man shall be peace."

Buick *Thermostatic Control* provides *smooth* Engine Performance at 0° or 90° *in the shade*

Thermostatic Circulation Control is a new reason why the Buick engine is so easy to start and so pleasant to drive, in all kinds of weather.

Summer conditions prevail all year, under the Buick hood. At 90°, or at zero, this valuable Buick improvement reduces the warming-up period to *less than three minutes!*

For this, and many other vital reasons, the 1927 Buick is the Geatest Ever Built. The engine is *vibrationless beyond belief.* Drive it and see what that means.
