**OREGON AGGIES WIN FROM MARQUETTE 29-0**

One of the most sensational football games of the season of interest to local fans was the game played yesterday at Milwaukee, Wisconsin, between our own O. A. C. 11 and Marquette university, in which the Beavers came away with everything to be had, the score being 29 to 0.

The Aggies won from the Web-footers of the U. of O. 16 to 0 in the game played last Saturday at Corvallis. They hopped on the train and sped east to Wisconsin for their closing game of the season yesterday. It was a brilliant finish.

L. H. Gregory in the Oregonian says the Aggies played with a spirit that made them indeed worthy representatives of the far west in an inter-sectional game that stirred wide interest in this section. Some

of the country's leading football critics were in the stands.

This is Coach Schissler's home country, he says, and hosts of his friends were there to see what kind of football team he had brought to do its stuff for the west. Congratulatory messages swamped Schissler's ability to answer them.

The victory is all the more noteworthy because the Marquette team is considered one of the crack teams of the mid-west. Two weeks ago they defeated the Kansas Aggies 14 to 0, and the Kansas Aggies are considered next to the best in the Missouri valley.

The great army-navy game at Chicago tomorrow will end the 1926 football season.

**Truthful Tommy.**  
A shop was giving away toy balloons to children. One little fellow asked if he might have two.

"Sorry," said the clerk, "but we only give one balloon to each boy. Have you a brother at home?"  
The youngster was truthful, but he did want another balloon.

"No," he replied regretfully, then added hopefully, "but my sister has, and I want one for him."

**How to Avoid Trouble.**  
Drive slowly on curves, grades and crowded roads.  
Don't cut in.  
If you have any doubt about having the right of way, let the other fellow go ahead.  
Go into second, or first, before crossing a railroad track.  
Signal correctly every time you turn or stop.  
Keep on your own side of the road.  
Have your brakes inspected and adjusted frequently.  
If you have a minor collision, don't get angry. Either leave it to your lawyer, or your insurance company to settle, or else fight it amicably with the other fellow right then.  
Keep your lights adjusted.

**Two Drops of Solder**

Mr. Rockefeller once discovered that if he could save two drops of solder in sealing each of his oil cans he could save \$38,000 a year. He did so and saved a small fortune annually.

To most of us the saving of these two drops of solder would have been insignificant, but to him it meant much.

This trait of saving the little things accounts in large measure for his marvelous success.

Small amounts saved regularly soon grow into large amounts which in turn enable a man to buy a business of his own.

One cigar less a day (10c) and in 5 years you have saved \$203.82.
