Yes! right now is the ideal time to have your Ford overhauled You have a good car and it will continue to give you first class service if you give it a square deal. Every car needs tuning up after a period of use to offset the effects of natural wear. If you neglect this, your car actually grows old before its time and will probably cost more to operate because of imperfect mechanical condition. You can spare your car better now than next spring and we can give you a faster job. Drive in and let's talk it over.

Why Be Satisfied With Less Than Your Motor's Full Power? Full power, as well as satisfactory and economical operation, depends upon the condition of a motor's piston equipment—piston rings, pistons and pins. When worn they need replacement. A worn motor means a larger gas and oil consumption and in these days of high gas and oil, that is no small item. You have every right to expect the utmost from your automobile, even though the speedometer does show a large mileage. A thorough reconditioning will bring back all the old-time pep and power and lower your gas and oil consumption. BRING YOUR CAR TO US Let us look it over. We guarantee an expert mechanical job and will use only the best parts, such as McQuay-Norris Piston Rings, Pistons, Pins and Bearings. YOU'LL GET A PRICE IN ADVANCE. Buick Stays in Style Motor car types come and go, just as motor cars do. But the grace and distinction which characterize Buick always stay in style. They never become commonplace. The reason is, that Buick style is sincere, and expressive of the quality that is in the car. Buick owners never are asked to buy a car of exaggerated design, with lines which might become distasteful to the eye. Buy a Buick! And you will always be proud of your car.
