BIG

People are so accustomed to think of Dodge Brothers product in terms of intrinsic worth, that the really exceptional SIZE of the car is not always fully appreciated.

And yet in this important respect, it stands alone in its price class—and several hundred dollars beyond.

Built on a 116-inch wheelbase, with ample leg-room and seats of exceptional width and depth, the car is big enough and roomy enough for thorough comfort—and yet compact enough for convenience at the curb.
