COOLIDGE'S SILENCE.

Coolidge's silence is proverbial. He is a man of deeds not words. Yet there is always and everywhere a desire to hear the president.

Most persons away from Washington would go many miles, if possible, to see and hear him. President Coolidge has made no speaking tours and has gone away from Washington for only a few public addresses.

One of these, said to be the twelfth speaking occasion away from the capital in four years, was recently when he addressed the United Press associations in New York City. He has many invitations and accepts few.

Notwithstanding this taciturnity of the president it is said that by means of the radio more persons will have heard his voice before he quits office than ever heard the voice of a single man in the history of the world.

And perhaps if Coolidge is renominated and elected for another term he will not only be heard by radio but seen by television while speaking by many millions of our people.

Gasoline taxes in this country yielded a net revenue of \$187,603,231 in 1926, according to data collected from the various states by the bureau of public roads of the United States department of agriculture.

A tax was imposed in all but four states at rates ranging from 1 to 5 cents per gallon, the average rate being 2.35 cents. The tax collections indicate that nearly eight billion gallons were consumed in the states imposing the tax and it is estimated that nearly two billion gallons were used in the four states in which no tax was imposed.

The revenue so received was used mostly for road building and up keep.

So far this year no local grown strawberries have appeared at the stores or at the cannery. Last year the first strawberries were delivered at the cannery on April 29. Then the season was about two weeks earlier than normal, this year it is about two weeks later than normal. But they'll be good when they come.

It's best to give garden crops a very thorough watering about once a week and then not apply any more water until they really need it, says an agricultural authority. That may be the right theory but it would be hard to work this time of year in this part of Oregon.

One thing, no one has a monopoly on the weather. All sections are having all kinds of it. But the east and middle west sections get their's with a few more frills than the far west.

Saving Time At Dentists Using

Saving time of patients is one of the main objects of dentistry. The E. R. Parker System, these dentists are skilled in doing the kind of work your teeth need. They work according to a plan and system and specialize in some particular branch of dentistry. You do not have to wait around at the dentist's office. This saving in time means lower costs for good dentistry. Investigate and compare the good quality and reasonable prices of dentistry under the E. R. Parker System.
