Published every Tuesday and Friday at Gresham, Oregon, by the Outlook Publishing Co., H. L. St. Clair, Editor and Manager.

One year, \$2.00, six months, \$1.10, three months, \$0.60. Combination rates with all the Portland Dailies.

ADVERTISING Rates reasonable. Our representative will call. Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

Legion Convention at La Grande, July 21-23.

One of the most interesting features of the American Legion convention to be held July 21-23-25 will be a trip to Wallowa Lake...

Reservations for rooms are coming in steadily and from all indications the attendance here will far exceed any of the previous conventions.

Communication Developments.

When Lewis and Clark started from St. Louis on their epoch-making trip to Oregon, they raced against time to claim the region for the young republic...

As late as 1852 it required six months to cover the trail from Iowa to Sacramento.

In 1861 the pony express established a record by carrying the first inaugural address of President Lincoln from the rail head at St. Joseph to Sacramento, in seven days and 17 hours.

Today, thanks to the development of our telephone system, any person in any part of the United States, at any hour of the day or night, can speak directly with any other person in any other part of the country.

Richest Nation in History.

The cash value of a 15-year-old child in this country is estimated by the editor of the Woman's Home Companion at \$25,000.

No parent will be so inhuman as to reckon the value of his children in this way. But the figure has an enormous importance in the calculations of the economists.

It is this great ability to produce, with the aid of natural resources and machinery, that has made this country the richest in history.

The figure is so tremendous that it is meaningless. Easier to grasp are these facts, produced by the government statisticians:

The average income of all persons gainfully employed last year was \$2010; nearly 40 per cent of the population of the United States is gainfully employed;

Nor has the limit been reached. Dr. W. I. King of the National Bureau of Economic Research says: "New inventions and greater skill and organization are still enabling the average worker to progress steadily upward in the scale of economic welfare."

GOVERNMENT SALE OF LIQUOR CONDEMNED

In a convincing and moving summary in the case against government sale, Rev. Murdock McKinnon, D. D., of Canada, tells what that fallacious policy has done for our neighbors.

"It promises respect for law, it yields contempt for government; it promises less consumption of liquor, it gives a yearly increase which is registered in the growing dividends of distillers and brewers; it promises less drunkenness and it produces more drunkards as evidenced by the criminal records of village, town and city.

The promise of 'advanced temperance law' is answered by the sighs of helpless women and the wail of hungry children. The promise of government 'control' is ironically echoed in ever increasing tragedies on the King's highway.
