

**Gresham Locals**

The Rev. and Mrs. H. V. Wilhelm and daughter Margaret, Robert Barnes, Miss Amy Cooper, Miss Joyce Kidder, Miss Dorothy Elliott and Lyle Mason will represent the Epworth League of the Gresham Methodist Episcopal church at the Epworth League institute which is being held this week at Falls City, Oregon. It is expected that others will attend the services over the week-end. Mr. and Mrs. Royal Mumford, recently married in Gresham, will be on the faculty of the institute, the former in supervised recreation and the latter in charge of junior work.

C. G. Schneider, Ed. Stafford and J. R. Horr have recently purchased building lots at Blue Lake on which they plan to set some future time to erect summer cottages.

Dr. and Mrs. A. H. Wright have received word from their son Philip, who is a wireless operator on the steamship "Santa Ana" at Kamchatka, Siberia, that he has been granted a leave of absence and will reach Seattle in about 20 days.

Mr. and Mrs. M. J. Allshouse entertained a party of 13 at their home Friday evening. Among those present were their nephew and wife Mr. and Mrs. Clyde Brown who recently came from Philadelphia, a nephew and wife Mr. and Mrs. Teris Brown of Erie, Pennsylvania, and Mr. and Mrs. Harry Bowman of Seattle. Mr. Bowman also a nephew.

Mr. and Mrs. L. P. Manning returned Sunday from a two-weeks' trip to Yellowstone National Park and a visit at Spokane with old schoolmates. The trip was a most enjoyable one except for the fact that on returning, while visiting with a friend at Spokane, Mr. Manning became ill and he and his wife were obliged to make the remainder of the trip on the train and leave their car at Spokane. His suffering was caused from hernia, but he is thought to be improving. At Caldwell, Idaho, they had a pleasant surprise visit with Mr. and Mrs. Fred McConnel, cousins of Mrs. H. L. St. Clair. As the Manning party, consisting of besides Mr. and Mrs. Manning, her brothers L. P. Sherwood and wife of Coquille, Oregon, and Perry Sherwood and wife of Los Angeles, drove past the McConnel home into a nearby auto park, Mr. and Mrs. McConnel, sitting on the porch of their home, observed the Gresham pennant. They followed the machine into the park and a pleasant acquaintance resulted.

At the recent session of the conference of the Free Methodist church which closed Sunday evening on the conference campground west of Portland the Rev. L. A. Skuzie was transferred to the pastoral work at St. Johns and Alberta, and the St. Johns pastor the Rev. D. B. Weintz was sent to Gresham. It is probable that the Rev. Mr. Skuzie and family will reside at Alberta where there is a modern parsonage. The Rev. Mr. Weintz' family consists of his wife and six children. During Mr. and Mrs. Skuzie's stay of a year in Gresham they have made many friends who regret to see them leave.

Mr. and Mrs. Oscar Noreen are now comfortably located in their new home on South Roberts avenue which they purchased about a month ago from Ferdinand Rhoda who has gone to California. The home is a pleasant one, entirely modern throughout. The newlywed couple proved their ability to keep a secret when they did not inform Mr. Noreen's parents Mr. and Mrs. G. A. Noreen of the new residence until a few days ago.

S. Tajima, who has been ill for several weeks with an attack of tonsillitis, is now able to be about his work again. He is planning to have the tonsils removed soon.

Ivan Swift and family spent Sunday in company with their cousins Mr. and Mrs. Oscar Mason and daughter Wilma at Aloha. The party motored to Rippling Waters, a camp ground near Forest Grove, where they enjoyed a picnic dinner together.

Mrs. W. R. Hicks returned Sunday evening from a five-weeks' trip to Remington, Indiana, where she visited her mother Mrs. B. C. Meehan. She also visited several days with friends in Chicago.

Mrs. A. L. Burton, her son-in-law and daughter Mr. and Mrs. Fred Rifer and little son and Miss Sylvia Weston have returned from a ten-day stay at Rockaway beach.

Mr. and Mrs. H. S. Munson of Long Beach, California, are the guests of Mr. and Mrs. M. M. Squire and are enjoying a few days of the county fair. They are on their way home from an extended tour of British Columbia and the Yellowstone National park.

C. A. Terrill has come to make his home with his son-in-law and daughter, Mr. and Mrs. H. E. Holmes.

An effort is being made to have Gresham business houses close during one afternoon of the fair in order to give employees an opportunity to visit the various exhibits and departments.

Ole Rask of Colton, Oregon, was here last Friday on a short visit. On his return he took with him his wife's mother, Mrs. A. F. Johnson, who is an invalid, and who will be cared for by Mrs. Rask. Albin, the 7-year-old son of Mr. and Mrs. Rask, has been brought to Gresham, where he will make his home with his uncle, Roy Johnson, and attend school.

Mr. and Mrs. Axel Wallin are building a modern home on the Base Line near Ruby Ranch. The house is a story and a half structure with six rooms and bath, and is designed for convenience and attractiveness. H. E. Holmes is contractor and builder. He is being assisted by George Niman and Chas. Witter.

Dinner guests Sunday of J. N. Mewhrter and his sister, Mrs. Belle Brown, were John Davis, his son Harold, wife and baby of Salem.

Mrs. Maude Axtell has returned to her home in Gresham after an absence of nearly four years, when she has been caring for her father, who recently passed away. Her father's home was in Wisconsin.

Dr. J. M. Crowley, a retired physician of Portland, and his son were in Gresham one day last week on business in connection with Oregon & Western Clipping service which they conduct at 505 Panama building in Portland. Their service extends over all lines of business and is from all papers in the northwest.

Mrs. P. A. Gould has gone in company with her son-in-law and daughter, Mr. and Mrs. George Hamblin and family of Portland to the Tillamook beaches for a few days.

Adolph Zamsky and family are planning to leave tomorrow for their new home at Hood River where Mr. Zamsky will continue his work in the photographic studio which he purchased some time ago. His successor in the Gresham studio is W. W. Siemens of Triumph, Minnesota, who will move to Gresham with his family in the near future.

D. C. Ross was at home today from his work in the mountains where he is engaged in building a large log house. Mr. Ross and Wm. Lenz bought two lots 150 x 75 on the Mt. Hood Loop road just this side of the government reserve. The house, which will be for sale when completed, is 48 by 35 feet in dimensions and will be ideal for a residence or for a lodge.

Of much interest to her Gresham friends is the approaching marriage of Mrs. Vera Tucker to L. M. Gilbert of Salem. Mrs. Tucker has lived in this vicinity for a number of years on her Tuckerhill Dahlia farm, and is well known in a wide range of territory on account of the exhibition of her famous dahlias in fairs and flower shows. She is the daughter of Mr. and Mrs. Bruce Wolverton of Portland and a niece of the late Judge Charles E. Wolverton. Mr. Gilbert is superintendent of the state training schools for boys at Woodburn and Salem.

**O. A. C. PICNIC TO BE IN AUGUST**

Roy Cannon, principal of Gresham Union high school, and Andrew Brugger, graduate of Oregon Agricultural college, have been named on the teachers' and agriculturalists' committees respectively of the second annual O. A. C. picnic sponsored by the Portland O. A. C. club to be held on Saturday, August 13, at the Oaks, Portland.

The picnic last year was a very successful event from every standpoint, including not only former and present students but prospective students as well, and this year it is expected that several thousand persons will be in attendance at the pleasant picnic grounds on the Willamette. The Oaks park offers much in the way of pleasant entertainment both for children and grownups and it goes without saying that the management will do everything possible to contribute to an enjoyable occasion.

The picnic will begin at 2 o'clock in the afternoon and continue until 11:30. There will be basket lunch on the lawn at 6:30. There is ample parking space in the park for automobiles and the place is easily reached by street cars. Arrangements have been made for the admission of all O. A. C. persons, families and friends without charge.

**RAISING A BABY IS FULL TIME JOB**

Some English novelists have recently been carrying on quite a warm discussion as to whether or not raising a baby requires full-time attention. This discussion has been carried on in the English newspapers, magazines, and over the radio. Quite a few of its echoes have reached this side of the water already. Although the discussion has been carried on in the stolid manner characteristic of Englishmen, quite a bit of it has been very pointed. One woman novelist, very much on the affirmative side of the question, writes that she once ran a baby herself. She waxes very eloquent on the necessity for entertaining the baby and to keep the baby from getting bored, all of which any mother or any nurse would appreciate.

Resigning all levity, however, the raising of a baby is certainly a full-time job, if it is carried on in a proper and successful manner, and in a manner agreeable to the best interest of the baby and the parents. A baby demands constant attention 24 hours out of the day. Some ear must be listening to its slightest cry, be it midnight or morning, and if the cry is not heeded, disaster may result. One woman, writing, recalled a statement that she heard her father make when she was a child, that it was quite a common thing for him to get up in the night and hand out at least 20 "dinks" of water. The parent must be alert at every sound and call. A sudden change of weather may demand more cover; a matter of 30 minutes or more might prove disastrous to the baby if delayed that long; and a thousand and one things demand attention day and night. The baby's food must be just right, and it must be given at the exact minute scheduled for the baby's best interest; the clothing must be constantly adjusted; it must be protected from flies and other pests and dangers; it must be constantly watched for symptoms of illness, and immediate action taken when such occurs. In fact, if there is any job in the whole world requiring all the time of a single individual, it is the job of properly looking after a baby. For the good of the world

and of the race, very near a hundred per cent of mothers find this job attractive and appealing, and find it a joy and pleasure instead of drudgery. It is well that such is the case, but it is none the less hard on the mother.

Yes, indeed, raising a baby, as the English woman novelist puts it, is a full-time job.

The necessity for selecting the right food for children is being emphasized because in the midst of plenty, thousands of American children are not getting the foods they need for the highest development of mind and body. The United States has more food and better food than any other nation. Our pure food laws and sanitary methods of handling food supplies are world famous. Along with our efforts to safeguard health through food control, however, we need to develop better food habits and so reduce our alarmingly high percentage of malnutrition. For the undernourished child does not have a fair start, and everything is harder for him. Even though his body may outgrow some of the visible signs of malnutrition, others not so apparent remain. His resistance is likely to be lowered so that he "catches" diseases easily. Faulty mental habits cling and in countless other ways he carries a handicap all through life.

**Do You Know?**

The Outlook has arranged to run this interesting feature regularly. The answers to the following questions will be found elsewhere in this paper. Reasonable and proper questions sent to this department care of Outlook will be answered, if possible.

**START the CHILDREN in BUSINESS**

Financial experience should be secured as early in life as possible. Many parents realize this and have started their children in business by investing in a savings account at the

**FIRST STATE BANK**

This is as truly a business as any other. It pays 4 per cent and the principal is safe. That is more than can be said for many other lines of business.

The matter of giving flags to children as an inducement to start a savings account has met with such success that we have a new supply of flags which will be given, while they last, to each new depositor making a deposit of \$5 or more in the Savings Department.

These flags are 3 x 5 feet with jointed pole, halyards and bracket. On July 1st we paid our savings depositors nearly \$7,500.00.

Was your child among those who received a portion of this interest? Wouldn't you like to get him interested in an account and started in saving?
