FIVE RING CIRCUS BIGGEST IN WORLD

Yep, youngsters, it's really true! Meaning that a rumor heard sometime ago is now confirmed by the official announcement that the Ringling Bros. and Barnum & Bailey combined shows will positively exhibit at Portland, Friday, August 26.

At that time the world's first and only five-ring circus will be within easy reach of local sawdust fans. With it will come the only genuine white elephant ever brought to America. He is "Pawah," the world-famed sacred white pachyderm from Burma, who will be the foremost feature of a menagerie composed of more than a thousand animals.

The big show is now a third larger than it was when it last visited this locality. Enormous new displays have been introduced such as 90 zebras, camels and horses performing at one time on a mammoth pedestal. On a similar series of circular raised platforms 32 of the show's 43 elephants dance, run

and perform in unison with the top-most of the ponderous actors 20 feet above the ground. Prior to this gigantic display five herds of elephants appear in the five separate rings. At another time the rings are given over to five companies of liberty horses. At still another juncture of the program 200 of the show's 900 horses, each ridden by an expert, are seen in the brilliant maneuvers. Of the 1600 people carried on tour

this season more than 800 are the world's foremost aerialists, bare-back riders, ground and lofty gymnasts, high-wire artists and super athletes. These are now seen in extensive groups and troupes each display led by its particular champions, a new method of presentation that is in keeping with the Ringling Bros. and Barnum & Bailey 1927 plan of extending acts in equal number over the entire length of the mammoth main tent.

Little folks will be delighted to learn that the bringing of a score of European clowns to America has increased the funmakers to more than a hundred.
