The new building, recently equipped with counter, will be ready for occupancy when the new switchboard arrives next April. It is being made in Chicago and will be entirely modern, providing the same kind of service furnished in the larger cities.

Mr. and Mrs. Olby and daughter Mary Joy arrived Saturday afternoon by auto from Ashland, Wisconsin, to spend the winter in the vicinity of Gresham. Mr. Olby is a brother of Mrs. Oscar Walin who with her husband and children recently bought the Smith property on Main street. He also has a brother, Hugo Olby, near Bairdsdale station with whom he and his wife and daughter will make their home while in the west. His parents reside at St. Johns. Mr. Olby is engaged in the general merchandise business at Ashland, but has arranged his affairs there so that he and his family may enjoy a winter on the Pacific coast. The carelessness of pheasant hunters in this vicinity Sunday might easily have resulted disastrously for Glenn Read, nine-year-old son of Mr. and Mrs. J. F. Read living at the intersection of the Barnes and Powell Valley road, when he was struck on the shoulder by a stray shot. The boy was not injured but badly frightened. Several shots came from across the road in front of the Read residence. One struck the house and others glanced from a nearby tree, one of these hitting the boy.

The football game last Friday between Gresham and Sandy, played on Stapleton field, resulted in another whitewash in Gresham's honor, the score standing 38 to 0. As this was but Sandy's second game of football, everyone said they did valiantly and put up a sportsmanship game that was a credit to them. An unintentional foul on their part called for a reprimand from the referee. The Gresham team will go there to play November 4 and it is hoped will be given some exceptional opposition.

Kenneth Bramhall, who was a member of the state championship potato grading team, won a scholarship for this event recently. He was also, as will be remembered, high scoring boy in the county for the A. W. Metzger & Co. scholarship. Maurice is next in line for this prize which was given by A. W. Metzger & Company.

Only Buick has an engine Vibrationless beyond belief

BUICK'S remarkable freedom from vibration is due primarily to three vitally important factors. First—the inherent smoothness of the Buick Valve-in-Head six-cylinder engine. Second—rubber engine mountings, front and rear. And third—the scientific and almost perfect balance of the entire Buick crankshaft assembly.

Only Buick enjoys these advantages. And only Buick provides the silken performance—the unvarying smoothness at all speeds—the longer life and greater serviceability of an engine vibrationless beyond belief.
