TABER RE-ELECTED GRANGE MASTER

production, and turn it back to forestry. The policy of the government the past 150 years has been unfair to the farmer in that the government through the sale of public lands and through its irrigation policy has been continuously bringing new virgin land into competition with farms already under cultivation. With the present surplus in many lines of food and fiber products, and the continued rural depression, we should actively oppose any appropriation for new projects at the present time.

Flood Control.

Congress should be liberal, thinks Mr. Taber, in its appropriations to prevent a recurrence of such disasters as that along the Mississippi river banks, and flood control measures should also provide for transportation facilities and the utilization of water power resources that can be made available, all linked up with a sound reforestation and conservation program; with the planting of trees and building of dams along the headwaters of many of our great streams, not only checking floods, but guaranteeing timber for the future and providing natural refuge for wild life.

Respect for Law.

The attitude of the grange toward prohibition and law enforcement is clear and commendable. The grange is always on the side of law and order. As to the 18th amendment Mr. Taber says the issue is clear cut. It is either law enforcement or the open saloon. The saloon, with its attendant evils, will never return if our citizenship understands the issue, he thinks.

Old Yet Young

Perhaps you do not know that the American Flag, the "Stars and Stripes" is among the oldest of National banners. It is older than the present British Union Jack—older than the flag of Spain and many years older than the flags of Germany and Italy.

When Congress adopted our flag in 1777, Washington said,

"We take the Star from Heaven, the red from our Mother Country, separating it by the white stripes, thus showing that we have separated from her, and the white stripes shall go down to posterity representing Liberty."

We have ten flags left only to be given to first ten new depositors making deposits of \$5 or more in Savings Department, No flags given away after December 1st, 1927. Flags are 3 x 5 feet with jointed pole and halliards and bracket. Children are delighted with them.
