

TWICE A WEEK

GRESHAM OUTLOOK

TUESDAYS AND FRIDAYS

VOL. 18, NO. 13

GRESHAM, MULTNOMAH COUNTY, OREGON, FRIDAY, APRIL 13, 1928

\$2.00 Per Year

Campaign's Closing Develops Tenseness

The meeting at the high school last night to consider the merits of the bond election of today was fairly well attended by citizens who were for or against the proposition.

K. A. Miller, clerk of the district, was the first speaker. He prefaced his explanation of the financial condition of the district with or without the bond issue, with reference to a recently published article in the Outlook by W. F. Honey in which the latter charged that the advocates of the proposed bond issue appeared to be drawn largely from those who have personal gain in mind or other interests or an axe to grind.

Claude Stockton, who has figured on the cost of the changes which will be made if the bond issue carries, showed drawings and explained the proposed plan. C. I. Raker and C. G. Schneider both viewed the subject partially from a sentimental standpoint, speaking of the boys and girls of the community as its greatest asset, and emphasizing the need of giving them adequate educational advantages.

Principal R. E. Cannon, with the use of blackboard and crayon, explained the tax questions involved, bringing out the fact that the proposed bond issue would not be an excessive burden but would be economy in that it would make it possible to continue taking in students from the outside districts who would be charged the full cost of their education and would thus help to pay the overhead of school expenses.

The charge has been circulated throughout the district that Principal Cannon gets a raise of \$10 on his salary for every pupil added to the school. He was asked if this was true and he replied that it was absolutely false. The question also arose as to the comparison of his salary with that of other school principals, it being charged that he was getting more than principals in schools about the same size or larger.

DENTAL OFFICE IS BEING REMODELED

Dr. W. J. Ott is having his dental office in the Bank of Gresham building entirely remodeled this week. J. A. Bushong in charge of the work. The room is being divided by partitions into four parts, one of these to be his operating room, another the retiring room a third his private office and the fourth a lavatory.

Sales of electric energy by utilities have doubled since 1921, and have produced a present gross revenue of one and three-quarters billion dollars. Of this total, one billion is paid for light, half a billion for power. The remainder is made up by power purchased by railroads and by sales between utilities.

In February and March eggs begin to be abundant again, and any time during the spring it is good policy to put down a few of the surplus eggs in waterglass as soon as they are taken from the nest. Next fall you will be glad to have them. The United States Department of Agriculture will tell you exactly how to save these eggs so that they will be in perfect condition when taken out of the waterglass solution.

FOR LEGISLATURE

A. J. Rose, prominent undertaker of east Portland, is a candidate for nomination as a member of the state legislature on the republican ticket. As a business man and a man of experience and sound principles he will commend himself to the voters.

INDIAN WINS SUIT AGAINST GEO. PAGE

George W. Page of the 12-Mile store lost a grocery bill amounting to \$42.77 and \$10 besides in a judgment rendered Tuesday in Circuit Judge Skipworth's court by a jury of two men and ten women. This was considered to be the value of a totem pole made by Alex. Morrison, a British Columbian Indian, who valued it at \$500.

Morrison made the pole in 1924, and during that summer he and his wife picked berries for H. G. Andrew on a berry farm on the Base Line. The Morrisons ran up a grocery bill at Page's store to the extent of \$67.77, and placed the totem pole for security. Page sold the pole to the Woods Indian Village, who set it up at Multnomah Falls. Page received \$25 for the pole, which he credited on the grocery bill, leaving a balance of \$42.77, judgment for which was granted Page last summer by O. A. Eastman in justice court. Morrison appealed to the circuit court, waiving his right to half his claim in order to bring the matter into that court.

Page made many attempts to sell the pole for enough to cover the grocery bill. He had it in his possession for 14 months before it was sold.

The question of costs is still unsettled, as Page did not ask for or want a jury trial. His interests were represented by Major D. D. Hall, a Portland attorney.

WARNING AGAINST EASY COURSES GIVEN

The United States civil service commission has sent a circular letter to advertising managers of newspapers and periodicals throughout the country citing figures which indicate the practical worthlessness of widely advertised correspondence courses in preparation for forest ranger examinations.

The commission says in the letter that it has made a survey of the examination papers of 1921 competitors in the forest ranger examination held last October, disclosing the following results:

Of 675 competitors who had no correspondence training, 189 passed the examination. Of 337 competitors who had taken a correspondence course in preparation for the examination, exactly 18 passed.

Sixty-nine were noncommittal as to training in advance. All of these failed. The commission quoted the following statement from a circular recently issued by the United States Forest Service regarding advertising of correspondence schools which give training for forest ranger examinations:

"Many of the statements in these advertisements are misleading and in some cases absolutely false. These advertisements frequently convey the impression that the forest ranger's job is largely a playtime job, or a convenient means for a man to get into the woods, while, as a matter of fact, the position of forest ranger is a permanent one of considerable responsibility, requiring arduous work often under difficult conditions, and with definite requirements as to experience and ability. Forest Service officials doubt the value of correspondence school under ordinary circumstances in furnishing proper preparation for forest ranger positions."

Gland Food Available. Sea lettuce (Dulse) supplies organic iodine, rejuvenates glands, prevents or cures goitre. Brain food. Bio-Chemistry Health Cook books. Taber Pharmacy, Gresham.—Adv.

Root Weevil Is Menace to Berries

Editor Gresham Outlook:—Reports are coming in of the damage done by the root weevil in berries and vegetables. The writer concludes that many berries and vegetable growers do not understand the nature and habits of this pest and the object of this letter is to stimulate growers to study the habits of the weevil, examine their plantings carefully, and be prepared when the right time comes to apply the remedy, the poisoned dried apple, to kill the bugs. The effect of root destruction in the cane berries by the weevil during the winter months is showing up in the red raspberry yards. Some report from 50 to 75 per cent damage. When the damage is so great in some yards it is reasonable to conclude that all yards are damaged more or less, and as this form of life multiplies at a rate of from 100 to 150 per cent or in other words one bug will deposit from 100 to 150 eggs that hatch into worms that feed for about nine months of the year on the tender roots of the plants, so you can readily see how the damage is done.

The damage to the strawberry roots is more noticeable than on the cane berries, as all of the roots are fine textured and cluster closely around the plant center. The weevil worms feed on the fine tender roots and the havoc wrought is more noticeable and the plant cannot bear good fruit. In many instances the plant is completely destroyed. This is a very grave situation. We have had many fields inspected and we find very few that are free from the pest unless the owner has applied the poison.

At the afternoon session of the Cooperative Berry Growers at the cannery on Monday, April 16, S. B. Hall will give a talk on this pest and its control, and all interested, whether members or not, are invited to attend and study the problem with us and make plans to check this menace to berry production. It has also been discovered that the weevil is working on the roots of vegetables so the vegetable growers should come to the meeting. All members of the association of berry growers should be sure to attend the meeting and all independent growers are invited to attend also.

E. W. Aylsworth has a very fine acreage of Cuthberts near the 12-Mile corner on the Base Line but on the west side of this yard he had a planting of strawberries and it will pay you if you are not fully convinced of weevil damaging raspberries to take a look now at the damage to the canes in the rows near where the strawberries grew. D. E. TOWLE.

FAIRMEN GET LIME FROM STATE PLANT

The first pooled carload of lime to arrive from the state lime plant was distributed by the county agent's office Monday to eight farmers in the vicinity of Gresham. The most of this lime will be used on ground where alfalfa is to be planted this year. Some will be used for sweet clover and red clover plantings.

The following are those receiving lime: Mrs. T. L. Hensley, five tons; A. L. Heacock, six tons; O. Toftte, two tons; Melvin Gradin, two and a half tons; O. A. Stanford, three tons; W. A. Proctor, six tons; John Manning, one half ton; Hugh Cameron, five tons.

The county agent's office is making pools at the present time for another carload and the orders will be placed within the next few days. The season is getting well advanced and those who are planning on using lime this spring should make application in order to get in on the next carload as this will probably be the last carload this season, says S. B. Hall, county agent.

GRANGE PROGRAM ONE OF INTEREST

An interesting program is being prepared for the lecture hour of the Gresham grange which will meet Saturday in its regular session. Miss Maude Aldrich of Gresham, national lecturer for the W. C. T. U. and a member of the national board of the Presbyterian church, will deliver the principal address of the afternoon. Miss Aldrich is a speaker of recognized ability and is sure to bring something before the public that is worth while. W. H. Baillie, newly-appointed club agent for Multnomah county, will be introduced to the audience and favor his hearers with brief remarks. Members of the St. Johns bridge committee will be present with short talks and musical numbers. Piano selections will be given by Danny Murphy and Bob Dowsett. This lecture hour, which occurs between 2 and 3 o'clock, is entirely open to the public. The registration books will be taken to the grange hall between 1 and 2 o'clock and will be available for those who wish to register.

Try baked cabbage with apples. Place a layer of chopped cabbage in the bottom of a baking dish, dot with butter, sprinkle with salt and pepper and cover with thinly sliced tart apples sprinkled lightly with sugar. Add another layer of cabbage and so on until the dish is full. Buttered bread crumbs are sprinkled over the top and the whole is baked with a cover on until the cabbage is tender and the apples are done. Uncover and brown the crumbs.

New things under "Classified."

20-CENT WANT AD SELLS THREE COWS

Every once in a while the good man of the house finds that his wife has put a little something over on him. Such is the frame of mind of A. M. Nichols, who from now on will probably be a firm believer in the slogan, "It pays to advertise." The recent insertion of an ad in the classified columns of the Outlook at an outlay of 20 cents resulted in the sale of three cows the day after the ad appeared. Mr. Nichols, the owner of the cows, did not know that his wife had inserted the advertisement until it was shown to him by the first buyer.

HEALTH NURSES TO GIVE PUBLIC SERVICE

A plan by which the school districts of eastern Multnomah county may have the advantage of visiting nurses during the next eight weeks was announced yesterday by Mrs. P. R. Whiteside, executive secretary of the Multnomah County Public Health association, and Miss Maud Hicks, county public health nurse.

The territory will be divided among four registered nurses who are studying public health nursing in the department of University of Oregon in Portland. Practical nursing is a part of the required work of the course. These nurses will be in their districts on Tuesday, Thursday and Friday of each week, ready to give service wherever they can. They will not take regular nursing cases but will assist in difficult situations and where adequate help cannot be obtained.

Miss Mary Nadeau will work in Gresham, Powell Valley, Orient, Cedar and Victory districts. Miss Jessie Fletcher will have Park Rose, Fairview, Troutdale and the Columbia highway districts. Miss Gwendolyn Johnston and Miss Jean Techeila will be located in Gilbert, Pleasant Valley, Rockwood, Lynch, Powellhurst, Wilkes and Russellville. Plans are being made for clinics for pre-school children in all the districts in May and June.

Miss Hicks and Miss Nadeau have consented to speak at the regular meeting of the mothers of the children of the Cradle Roll and Beginners departments of the Methodist Sunday school next Thursday afternoon at the church. The program is being arranged by Mrs. Curtis Johnson.

ROCKWOOD

Stanley Roney, son of Mr. and Mrs. Charles Roney, was given a surprise party Wednesday evening, the occasion being his ninth birthday. Those present were Shirley Beverley and Landon Kaser, Pearl, Neva and Herbert Stanley, Merrill and Alene Stanley, Florence Stanley and Lucille and Mildred Kaser. After a jolly time of games, dainty refreshments were served. Stanley received many nice presents.

The regular business meeting of the Rockwood Ladies Aid was held at the parsonage Wednesday afternoon. Plans were completed for the silver tea which is to be held at the church Friday evening, April 20. A program has been arranged and lunch will be served. The money is to be used to pay for the tables being built for the church.

Mrs. Thos. Olds, having moved to Portland, resigned her place as president, and Mrs. C. L. Haynes was elected in her place. Mrs. J. F. Dunlop was elected vice president.

Mrs. Marian Bartholomy and baby, Doris Elaine, visited several days this week at the home of her parents, the Rev. and Mrs. J. F. Dunlop of Rockwood.

The regular monthly business meeting of the Base Improvement club met at the Rockwood grange hall Tuesday evening. A packed house listened to the fine program and enjoyed supper.

Mrs. M. Norby was very ill at her home several days this week caused from high blood pressure. She is being cared for by her daughter Violet and is improving very well.

A large crowd listened to the Easter program given by the Sunday school, Sunday evening. The choir, under the direction of Mrs. Minnie Smith, rendered several beautiful selections. During the evening a collection was taken for the foreign mission work.

Walker Quesberry is building a fine building on his property by his filling station. It will be used as a hardware store.

Forty friends of Mrs. Elsie Grimshaw gave her a miscellaneous shower at her home Thursday afternoon which was much enjoyed by all present. Lunch was served.

Sunday services will be held as usual at the Rockwood Methodist church, Sunday school at 10 o'clock, followed by preaching at 11 from the text, "The Most Popular Man in the World." There will be special music at both morning and evening services.

Registration Books Close April 17. All voters should see that they are registered in their residence precinct. No unregistered citizen can vote. Register with Ross Brown, Main street, Gresham. Open Saturday evening.—Adv.

In 1927 electrical appliance and radio manufacturers did a business of about two billion dollars.

School Improved by Troutdale Citizens

"We sure have a fine, public spirited bunch of folks over here!" This was the statement made by John Denison, chairman of the Troutdale school board when the Outlook asked him about improvements recently completed on the school grounds. The Outlook has reason to believe that Mr. Denison was right in his statement.

A goodly number of these same public spirited citizens met at the schoolhouse and put in some effective work at leveling the grounds. The use of five tractors was donated by men of the community as well as one team, and about 20 men gave their work covering a period of three days, Wednesday, Thursday and Friday. The work was done under the supervision of Bert Edmundson.

Dinner was served each day in the lunch room of the school by the wives of members of the board and other public spirited women of the community. Troutdale merchants helped in providing the food for the dinners.

When the ground has settled sufficiently, playground equipment is to be installed and the space around graveled. Some new shrubs and rose bushes have been set out.

The teachers of the school are R. D. Hewitt, principal, Mrs. C. I. Thomas and Mrs. A. E. Scott. The teachers for next year have been chosen. They are Mr. Hewitt, Mrs. Thomas and Mrs. Mabel Nichol, the latter from Portland. Mrs. Thomas will have the primary room and Mrs. Nichol the intermediate.

The board consists of John Denison, chairman, M. B. McGinnis and Mrs. Gerta Howell. H. E. Bloyd is clerk.

Ell Spencer of Bend, has bought the place in Troutdale heights next to the C. I. Thomas place and he and Mrs. Spencer are making their home there. They entertained several members of their large family Easter Sunday. Those who spent the day with them were two daughters, Mrs. Lottie Hinkle and Bertha Spencer, and a son, Frank Spencer, all of Bend, Oregon; a granddaughter, Mrs. Carl Copper and small son from Hood River; Mr. and Mrs. Lewis Schmorel and daughter Margery and son Cecil from Manhattan Beach. Mrs. Schmorel is a daughter of the Spencers.

The Rev. E. R. D. Hollensted, pastor of Troutdale community church, will exchange pulpits Sunday, April 15, with the Rev. J. E. Fancett of the Clatskanie Presbyterian church. Services will be at 10 o'clock. All are invited to attend.

Among dinner guests Sunday at the home of Mr. and Mrs. Lee Evans were J. Berdine and Mrs. Ruth Brink of this place and Mr. and Mrs. Roger Bergfield and son William of Portland.

J. Boender was taken suddenly ill Sunday morning with appendicitis and was rushed to the Veterans hospital in Portland where he was operated on at 11 o'clock. He is doing as well as could be expected.

Mr. and Mrs. C. E. Scott and daughter Miss Mary Scott and son Joe spent the Easter vacation in Salem with Mr. Scott's parents.

Guests over the Easter vacation at the home of Mr. and Mrs. Russell Wilson were Mr. and Mrs. A. Seiling and Miss Thelma Seiling, all of Portland.

Mr. and Mrs. J. Halley and daughter Lorena spent Sunday in Camas at the home of Mr. and Mrs. Banaka. Mrs. Banaka and daughter Eunice, accompanied them home and are spending the week visiting friends here.

Will Pelton of McMinnville was a visitor at the home of his brother, Fred Pelton, last week. Sunday visitors at the Pelton home were Mrs. A. Shields and daughter, Miss Mildred Shields, and Mrs. N. Norton and son Norman, all of Portland.

Miss Elizabeth Robinson spent the Easter vacation at the home of Miss Helen Althaus on the Sweet Briar farm in Cedar district.

Mrs. Anna Jones of Portland is visiting at the home of her sister-in-law, Mrs. Electa Parsons.

The high school girls gave a party in the auditorium of the schoolhouse last Thursday evening. A large crowd attended. The evening was spent in games, after which a few of the ladies served lunch.

Mr. and Mrs. J. F. Coons entertained at dinner Wednesday evening, Mr. and Mrs. A. D. Kendall and the Misses Amy and Dorothy Kendall.

Mr. and Mrs. Z. G. Schenck entertained at dinner on Easter Sunday, Mrs. Anna Jones and Mrs. Dora Shute of Portland, Mrs. Electa Parsons, Betty and Buddy Hayes, Mrs. Mary Parsons and son Dale and Mr. and Mrs. C. F. Parsons.

Easter Sunday dinner guests at the A. D. Kendall home were Mr. and Mrs. Julius Lampert and son Basil and daughter Lenore. On Tuesday evening the Kendalls entertained O. Griesel at dinner.

Visitors at the home of Mr. and Mrs. Russell Wilson were Mrs. Mona Davis and Miss Thelma Seiling of Portland.

AUTOWISE SERVICE Knowing what to do— Equipped to do it— Doing it— Guaranteeing it— That's autowise service. Brockway & Nelson Phone 1471 Ask for Ed. Tell it to One-Five-Six-One.

Church Services

OUTSTANDING TRUTH INSPIRING SUBJECT

Next Sunday morning the pastor of the Baptist church will speak about some of the great outstanding truths generally believed about God, and his theme will be "Finding the Way to God." This should prove to be a very interesting and inspiring subject to all who sincerely and devoutly worship. The choir under the direction of Mrs. H. S. Clow will provide special music.

The Bible school will commence at 9:45 a. m. and the church service will follow at 11 o'clock. Because of the Young Peoples' rally to be held in the Pleasant Home Baptist church next Sunday afternoon and evening, there will be no B. Y. P. U. or preaching service in the Gresham Baptist church at that time.

SPECIAL SERVICES TO CLOSE MONDAY EVENING

The special services at the Udenominational temple are being well attended. Mrs. Booth-Clibborn is a very pleasing speaker. She will have charge of the services tonight and tomorrow night, Sunday at 2 p. m. and again in the evening.

Miss Cline, who is assisting Mrs. Booth-Clibborn, will conduct a service for the children Saturday at 2 p. m. to which all children are invited. On Monday evening she will give her personal experience. At this service there will be several songs given by a chorus of children whom Miss Cline has been training.

The Monday evening services will be the closing service of the series conducted by Mrs. Booth-Clibborn and Miss Cline.

Sunday school will be held at 10 a. m. and the regular prayer meeting will be held Tuesday evening. All are invited to these services.

REV. M. V. WHETZEL APPOINTED PASTOR

The Rev. M. V. Whetzel, at a special society meeting of the Free Methodist church at Gresham Tuesday evening, was appointed by District Elder J. T. Taylor of Portland to fill the pulpit at this place temporarily. Mr. Whetzel, who is a speaker of ability, resigned the regular work of the pastorate some years ago on account of failing health.

The regular services of the church will be maintained, Sunday school at 10 o'clock, preaching at 11, class meeting at noon, with young people's service at 7 o'clock in the evening and preaching at 8. Prayer meeting will be held each Thursday evening at 7:30.

The theme of the Rev. Mr. Whetzel's sermon Sunday morning at 11 o'clock will be, "Distribution of Christian Rewards." This discourse is built upon the example of David's dealing with his disabled soldiers that were left at the brook Besor after the Amalekites had destroyed the city Ziklag. The text will be found in 1. Samuel 30:24. A cordial invitation is extended to all.

PASTOR'S TOPIC TO DEAL WITH MIRACLES

Services at Evangelical church will be held at 11 a. m. Sunday, preceded by the Bible school at 10. The pastor, the Rev. E. Horstmann, will take for his topic, "Doubt and Unbelief in the Land of Miracle." The doubt of a Thomas is a daily recurrence among thousands who live in the land of miracle. Our services will assist in removing the cloud of doubt.

The Sunshine club will meet at the home of Miss Anna Brugger Tuesday evening. Friends are cordially invited.

"WELLS WITHIN" SUBJECT OF SERMON

The sermon for the morning service on next Sunday at the Methodist church is entitled, "Wells Within." It has to do with those things that contribute most largely to the joy and well-being of the soul, and shows the way to the higher life. The sacrament of baptism will be administered at the close of the service. The sermon for the evening is called, "Investments." Although these are commonly considered in terms of finance, yet this sermon has nothing whatever to do with this subject, but with the larger and more vital investments that are made of life itself.

The Sunday school meets at 10 and the Epworth League at 6:30.

Dairy heifers from fall-freshening cows enter their second six months under the favorable conditions of summer pasture and it is usually necessary to feed some hay or silage or a little grain only in the spring and later when the pastures begin to fail. A calf born in the spring enters the second six months in winter and should be well fed to keep her developing rapidly so that she may be bred at the proper age and become an income producer. The U. S. Department of Agriculture advises that during late fall and winter the heifer calf should be fed all the legume hays she will eat, from 5 to 15 pounds of silage, and enough grain to keep her in thriving condition. A safe rule to follow is to allow about one-half pound of grain mixture for each hundred pounds live weight. This animal should have a somewhat heavier ration.

Insurance funds for farm loans. No commission or brokerage. Very easy terms. B. W. Thorne.—Adv.

Berry Growers Vote on Change of Name

The stockholders of The Berry Growers Packing company passed a resolution at its 7th annual meeting yesterday to change the name of the corporation to Gresham Berry Growers, Inc., as soon as the Gresham Fruit Growers association is dissolved, the object being to capitalize the name "Gresham." It was stated that this was offered as an olive branch of peace to the business men of Gresham and for the reason that it is a good name to conjure with. It was also said that the quality of berries grown in this locality is second to none anywhere.

A resolution was also passed empowering the directors to take up the balance of the old association stock at par and dissolve that organization. This was in keeping with a pledge made some three years ago and is believed to be a happy consummation, as this is at least one enterprise in which Gresham people got their money back with a small dividend.

N. P. Nelson of Anderson station and C. T. Ryan were unanimously elected directors in the company. Nelson succeeds W. D. Fraley, who declined to serve, owing to pressure of other business. Regret was expressed at Fraley's inability to serve, but it was stated that Nelson brings to the board mature judgment based on many years' successful business experience. The organization of the board of directors resulted in the following choices: C. T. Ryan, president; E. P. Scheeden, vice president; J. J. Fisher, sales manager; Miss C. B. Greene, secretary; D. E. Towle, manager-treasurer.

At the meeting of the Cooperative Berry Growers to be held on next Monday, April 16, C. M. LaFollette has volunteered to give a demonstration of top grafting a black walnut with Franquette scions. Mr. LaFollette has been successful in this work, and as there are many black walnut trees in this locality this will be especially interesting. All are invited to be present, whether members of the association or not. The demonstration will be at 1:30.

Of the total current produced by utilities, nearly two-thirds was generated in fuel burning plants, which used 37 million tons of coal. Increased efficiency in generation saved as much coal last year as was used for steam-generation in 1913, and the consumption of coal per kilowatt hour is steadily decreasing.

Hog men are realizing that pigs raised on the same old pastures year after year suffer heavy losses from intestinal worms and other disorders. A change of pasture is important.

What you want, when you want it, as you want it—Want Ad it.

Do You Know?

The Outlook has arranged to run this interesting feature regularly. The answers to the following questions will be found elsewhere in this paper. Reasonable and proper questions sent to this department care of Outlook will be answered, if possible.
