Read, and other relatives here and in nearby localities, left Thursday morning for Pasadena, Calif., where they will visit with Mr. Logsdon's parents for several weeks before beginning the return trip to their home in Kentucky. En route to California they had planned to stop at Klamath Falls to spend some time at the home of Mrs. Logsdon's brother, Will West.

While there the entire family greatly enjoyed the pastime of horse-back riding. On their return trip they narrowly missed an automobile accident, when the fenders of their machine and one they met, grazed.

Work of considerable interest has been going on at the A. W. Metzger & Co. store for several days past—the repairing of the 16-ton Fairbanks truck scales which have served their purpose without a break for the past eight years. A few days ago one of the old timbers of the scale broke, and this is being replaced under the direction of Frank Gibbs and L. J. Winter. As long as any repair was necessary, new timbers throughout are being put in, two of these 12 inch x 16 inch and 18 feet each in length. The scales are in use much of the time, as the cannery management has rented them for weighing their berries which are shipped by truck.

**Eat BETTER Food! More HEALTHFUL Food!**

Use the New Method of Cooking Without Water—

More Delicious Food at a Much Lower Cost

Stop boiling the real food values—the necessary vitamins—out of food. Use the new way which science has discovered. Cook the much-needed minerals, iron, calcium, into your food, not out of it! Tests show that under the old method of cooking we lost—threw away—60% of valuable body-building elements. Your own experience proves this to be true. When you cook soup, your meat is left flat, tasteless. You have "boiled out" the food value. It is in the soup. So it is a fact that this new method of cooking assures you better tasting and more healthful food.

A Whole Meal Over One Flame!

Cooking without water saves fuel. One burner will take care of meat, potatoes, vegetables and even puddings. Saves washing six or more pots and pans. Cooking requires no watching or attention. This Cooker Set will meet the requirements of a small or large family. Will cook sufficient food for a family of ten.

Complete Outfit ONLY **\$6.98**

Every meal will be "delicious." To the housewife, this will prove the "greatest discovery" in history.
