CARS DAMAGED IN PECULIAR ACCIDENT

A Chrysler coupe driven by a woman and a light truck belonging to the Fairview Grain & Warehouse company and driven by Guy Mott, figured in an accident which, though not resulting in serious injury to the occupants, damaged the cars to some extent.
A rear tire of the coupe blew out. Four-wheel brakes were applied, bringing the car to a stop. The truck, which was following closely, swerved to the left, ripped a fender of the coupe and ran across the pavement into the ditch, damaging the front wheels.
The occupants of the coupe were uninjured but a boy riding on the rear of the truck had his hand injured.

YES

Dodge Brothers Standard Six is the fastest car, with the fastest pick-up, under a thousand dollars.

HOWEVER

That is only HALF the story. The IMPORTANT point is that this exceptional speed is made practical by Dodge ruggedness of chassis and body construction

OTHERS

Might succeed in building a car at this price with equal SPEED, but to do so successfully they would also have to build a car with equal STURDINESS.

AND

That is where Dodge Brothers, with years of experience in building a dependable low-cost product, are years ahead of the field

YOU

Can buy the Standard Six knowing that it is not only the fastest car in its class but the sturdiest—and the one is every bit as important as the other.
