WAR PREVENTION.

The National Council for the Prevention of War has announced its program for the coming year as follows: (1) to promote the substitution of a naval reduction conference for the "big navy" program, (2) to crystallize sentiment favoring a series of treaties between the United States and other countries renouncing war as a national policy, (3) to find the way to break the deadlock on the World Court, (4) to educate on the deadly policy of imperialism and support our government in finding a better way, (5) to educate for increasingly helpful participation on the part of our country in the organization of the world for the maintenance of permanent peace.

The need of an intensive research program at the University of Oregon, which would take up problems of the state as well as educational matters, is pointed out in the annual report of Dr. Arnold Bennett Hall, president of the university. The report was presented before the board of regents at the meeting June 9. Among other things he said: "Proposals that are coming up for the next state legislature point the way to a very significant line of research in regard to the possibility of the reorganization of the state government. The work of the special tax committee shows at every turn a need for productive scholarship in assembling in a painstaking way the facts regarding the operation of different tax systems throughout the various commonwealths, and the careful formulation of how such proposals would operate in the state of Oregon."

Oregon communities with outstanding cooperative marketing enterprises in operation are to be visited this summer by some of the country's most outstanding leaders in this movement. The last week of the summer session of the American Institute of Cooperation which meets in California will be devoted to an Oregon tour. This will doubtless include Gresham where there is an outstanding cooperative. Arrangements are being made by a committee headed by Paul V. Maris, director of the college extension service.

Many rural residents are protesting, and rightfully so, because of the destructive actions of city motorists who, upon their excursions into the country, tear down fences, destroy scenic sites and encroach upon private property, according to the Oregon State Motor association which issues a plea for fairness in this regard.

The popular belief that running water in the mountains purifies itself every few hundred feet and is always safe is not accepted by the sanitation authorities, according to the United States department of agriculture, forestry service.

It must be just a bushel of fun to be a kid these hot days and stand under the sprinkling spray for an outdoor shower. As a rule the children have the most of the fun anyway, if they but knew it.

Oregon mills are adopting ultra-modern looms that will weave six and a half yards of cloth per hour. Older looms weave four and a half yards per hour.

The cooperative marketing of grain has been carried on more successfully in Canada than the United States, it is said.

Pendleton, it is announced, will build a \$65,000 memorial hall and auditorium.

The motorist who installs a complete new set of spark plugs every 10,000 miles of driving will save more than their cost in saving on gas and oil and have the satisfaction of increased motor efficiency. In 10,000 miles of driving a spark plug is said to fire the astounding number of 15,000,000 times approximately. Spark plugs have been improved greatly in recent years but there are none that do not deteriorate under the heavy strain of heat and use.

GRESHAM COUPLE ENJOYS EXCURSION

Mr. and Mrs. L. P. Manning were members of the excursion given under the auspices of the Veterans of Foreign Wars to Klamath Falls, leaving Portland Saturday, July 14. They spent a most enjoyable week there. Friday they were taken to Crater Lake. A barbecue of Klamath Falls baby beef was given the visitors that afternoon near Fort Klamath, and in the evening a banquet at the Pelican grille.

Among other events they took a 24-mile water trip from Klamath Falls to Eagle Point on a barge towed by a steamer, and enjoyed a banquet at the latter place. The Southern Pacific railway company, the Chamber of Commerce of Klamath Falls and the Pelican Post ferried from Portland to Seattle. Veterans of Foreign Wars sponsored the different features of entertainment given the excursionists.

Mr. and Mrs. Manning visited with cousins, Mr. and Mrs. Henry Bonney, during part of their stay at Klamath falls.

FORMER PASTOR TO PREACH AT GRESHAM

The Rev. D. Q. Barry, formerly a pastor of the Bethel Baptist church, will occupy the pulpit Sunday morning at 11 o'clock. The theme of the sermon will be, "The Philosophy of Human Life." The discourse will be fully illustrated by the use of the blackboard. All of the old friends and everyone interested are invited to worship at the Baptist church Sunday morning.

Bible school will convene at 9:45.

PLEASANT HOME

The lawn fete held on the spacious lawn at Ingleside farm, the home of Mr. and Mrs. B. C. Altman, was pronounced a wonderful success by those who attended. Electric lights made the place seem almost like day, and the porch was fitted up for a stage so the program could have an appropriate background. Piano numbers were given by Miss Edna Wolters of Auburn, Wash., and the Misses Nellie and Patti Greenwood of Orient. Miss Margaret Fitzgerald gave two vocal solos, accompanied at the piano by Miss Wolters. The Rev. William Fairweather was present and delighted the audience with a group of songs. Miss Wilma Chase was the accompanist. A group of young people presented a "meller dramer" in pantomime which brought forth much laughter. Little Gwendolyn Wolters was the announcer, appearing before the audience with a large placard giving the name of the next number. Mrs. Ella Richardson gave two very interesting readings which were well received. Following the program the young people engaged in playing games while all enjoyed the ice cream and cake, the sale of which netted a neat sum for the piano fund.

The series of special meetings, in which Rev. William Fairweather will assist the Rev. Gordon Johnson at the Baptist church, will begin August 5. Plans are under way to have open air meetings on the church lawn. Further announcement will be made as to special musical numbers. Miss Clara Johnson, who has been employed as saleslady in a store at St. Helens for several months, is enjoying a vacation at the home of her parents. Mr. and Mrs. H. C. Nelson attended church services at the Third Baptist church in Portland where the Rev. William Fairweather is pastor. Mr. Fairweather's mother is visiting her son and family.

Proper flue construction will save from one to three tons of fuel a year, according to the research department of Northwest Furnace Builders. The warm air furnace which, through faulty flue construction or clogging, fails to get the proper draft immediately shows listlessness and lack of pep. Expertly constructed flues increase the ability of warm air furnaces to produce heat efficiently and economically. The flue which is especially built and tiled will pay for its increased cost in short order. They claim also, that the round flue is more efficient than a square flue of the same diameter. The gases take a spiral motion as they ascend the chimney. Friction is reduced through the use of a round flue.

For the Ladies Snappy styles in new tootwear for spring. Come in and see them. Popular prices, \$3.95, \$4.95, \$5.95. Aylsworth & Martin, Gresham.

ROAD PROGRAM MAY BE HALTED

Oregon motorists and taxpayers will be interested in the fact that the so-called \$3 and \$5 measures, which would have affected the state highway program, will not appear on the November ballot, as the necessary signatures to initiate petitions were not filed at Salem.

The public mind has become confused through extensive preliminary discussion in the state press of these bills, says the Oregon Good Roads association, and it should be pointed out, as a matter of interest of the highest importance, that the only measures relating to motor vehicle licenses and a tax on gasoline which will have a place on the ballot are those initiated by Joe Dunne, of Portland.

Mr. Dunne's license bill provides for a general reduction in license fees of approximately 50 per cent. If this bill should be approved by the people in November, the state highway fund will lose about \$3,000,000. The other initiative measure would increase the gasoline tax from three to five cents per gallon. If both bills should pass, the state's income from the gas tax would be increased about \$1,200,000, leaving the highway department with a net loss of nearly \$2,000,000. Should the people approve the decreased license fees set up in the Dunne bill and reject the increased gas tax of his other bill, the net loss to the highway fund would amount to a sum equivalent to that now available for new construction and betterments. Unconvinced by this threatening situation, the highway commission has been forced to call a halt in its contemplated program for next year and to hold in abeyance any expenditure other than maintenance and the mandatory payments of principal and interest on road bonds.

The above figures are based on careful and conserving estimates of state revenues relating to the highway fund, which was set up by the people, and the legislature to accomplish a definite program of state road construction. This program is far from completion at this time.

President and Mrs. Coolidge are wearing on their outing in Wisconsin wool blazer coats made out of cloth from an Oregon mill. The coats were presented to them by a manufacturer of Stillwater, Minnesota, who is using fifty thousand yards of Oregon cloth in garments he makes.
