coming in to **look and learn** costs nothing

Neither do we charge you for advice as to how best to heat your home, nor for figuring the exact cost of a Montag installation.

Here on the floor we have many models all set up. Here you can see for yourself how extra heavy are the castings, how extra thick are the casings. Here we show you why the Montag furnace is designed the way it is, and why it fits climatic and fuel conditions; and then we show you the exact character of Montag factory installation as it would appear in your home.

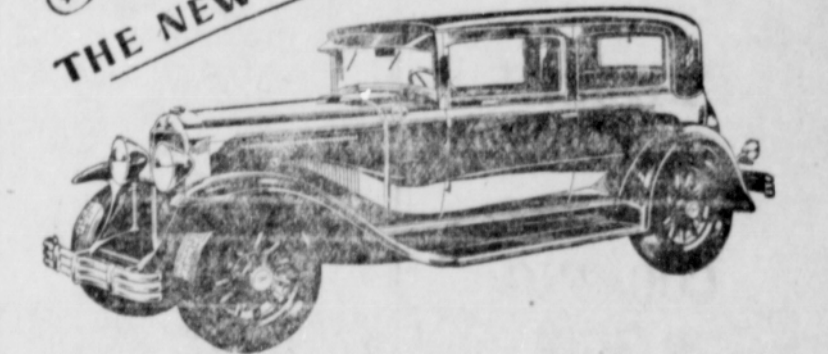

Remember, it costs nothing to look and learn and have us figure the exact layout and cost for you.
