Portland has a hot fight on for mayor that will almost obscure the national issues. Hope the murky atmosphere of the Rose City will clear after the election.

The last week of the campaign. Next Tuesday the leader will be chosen, the issues will be decided, and then we will all settle down to business to make this the greatest and best country on earth.

All voters are urged to wise up on the state measures. First of all decide to vote No on both of the unwise Dunne measures. Havoc will result if either or both should carry. Senator Dunne has realized his mistake and repudiated his measures as disastrous. Too bad they had to go on the ballot, but having been sponsored and filed he could not withdraw them. Something weak about the initiative in Oregon.

There's not much excitement over the Gresham city election. Just an occasion for sober thought, wise choice and forward-looking vision. There's no criticism of the past. Citizens have served unselfishly and well and the same would certainly continue with the same officers. There are no outstanding issues. The choice of new and younger men for office, if it shall be made, will be no reflection on those who have served faithfully. There is no occasion for radical change but there is room for a more progressive spirit in city management, stricter enforcement of reasonable city ordinances, encouragement of a cleaner, healthier more orderly city and larger plans for the future. These things are partly up to the attitude of the council but chiefly depend on the cooperation of the citizens.

THE DEICH RECALL.

A little ballot will be handed voters in Multnomah county on election day which will be a recall ballot. Judge Richard Deich of the court of domestic relations is the one on whom the recall is invoked. If you vote No you vote to retain Judge Deich in the important office to which he was elected two years ago. If you vote Yes you vote in favor of the recall and against Judge Deich. By all means vote No.

Judge Deich has done nothing for which he should be recalled. He may not be the very best man possible for the job but he was elected and has administered his office honestly and conscienciously though not always to the liking of those with whom he had to do. He has had the welfare of the children at heart and has acted on his own best judgment and not always on the advice of others.

The recall is the result of spite on the part of some who have been disappointed over Judge Deich's decisions.

There is no good reason for recalling Judge Deich. His office is one that is very hard to administer and please every one and it is to be expected that he will make some enemies. All judges do that and all make some mistakes. Give Judge Deich the benefit of any doubt and be fair to the man you have elected.

The recall of public officials is a serious matter. It is an extreme measure that should not be invoked except in extreme cases where there is evidence of positive incapacity or corruption or malfeasance in office. No such condition exists with reference to Judge Deich and the administration of his office. His recall would be most unfair and in itself a miscarriage of justice.

WHO? HOOVER.

Who will be most likely to constructively solve the farmers' problems? Hoover.

It is easier to shed tears over the farmer's plight than to study his problems and work out remedies based upon facts and conditions. Promises are free as air and mean little more than the ability of the one making them to carry them out. Good intentions are worthless unless backed by both experience and understanding.

Herbert Hoover knows how; is broadminded, sympathetic and has influence. Among the proposals in his working program are the following:

1. Adequate tariff protection for the farmer.
2. Lowered transportation costs.
3. Improved marketing conditions. The creation of a federal farm board of representative farmers to study, adjust and recommend what will be of material benefit to the farmers.
4. Government cooperation. The building up of a system of cooperation without interference or regulation, to secure progress in the industries, remedy abuses, eliminate waste and reduce the cost of production and distribution.
5. Increased exports. The sale of the farmer's surplus is to be promoted abroad. Mr. Hoover says: "On any calculation our exports have increased by over one billion dollars during the past seven years. . . . I propose that we shall continue this service to our people."
