IS THE MAN JUDGED BY PRICE OF HIS CAR?

Why is it that low-priced cars have always been small, and that the lower priced they are the smaller they seem to be? asks J. W. Frazer, Chrysler and Plymouth sales manager. "To say that buyers of low-priced cars are smaller physically than those of higher priced ones is plain foolishness," says Mr. Frazer. "Furthermore, owing to the prevalence of larger families among those in more moderate financial circumstances, low-priced cars generally carry more persons per car than those of higher price. The former is truly the family car—the only one that family has. It serves both parents and children alike at all times.

"Commensurate with his pocket-book, the buyer of a low-priced car wants and has the right to expect just as much as the manufacturer can possibly give him in size, comfort, distinctiveness, performance, style and luxuriousness, as the man who can afford to pay more. Someone seems to have overlooked that until now, when it is brought out forcibly in the new Plymouth.

"Just how much these conveniences are demanded by buyers in the low-priced field is evidenced by the tremendous popularity of the new Chrysler Plymouth already has created. Dealers all over the country are reporting that never before have they received such enthusiastic comments over a low-priced car as they are receiving about the Plymouth. Buying orders are coming to the factory by the thousands. Such spontaneous enthusiasm can mean only one thing—that the Chrysler Plymouth has filled a definite want of long standing, and that scores of thousands of buyers of low-priced cars are turning to it for their next automobile.

"The Chrysler Plymouth is giving the buyers of low-priced cars the utmost they can get for their money, in comfort, size, distinctiveness, luxury and performance. That is why this new Chrysler-built car already is revolutionizing the entire low-price field."

The Hessel Implement Company, Chrysler dealers in Gresham, are enthusiastic over the performance of the Chrysler line and especially the exceptional value of the new moderate priced Plymouth.
