

HILLSVIEW

The pie social given by the Parent-Teacher association at the Hillsview grade school, November 2, was a decided success, financially as well as entertainingly. The building was filled to overflowing with an interested audience. The program, which was splendid in every detail, was given by the school children, and much credit is due the teachers for their efforts in assisting them. Brenton Vedder, county school superintendent, who was present for the occasion, spoke in an interesting manner that was appreciated by young and old.

Total proceeds of the evening amounted to \$65, \$15 of which was contributed by three Japanese families of the district. The rest of the money was received from pies auctioned by W. T. Sharkey, and

from the lunch served in the basement. The money was used as a final payment on a piano which had recently been purchased for the school.

CHEVROLET
CONSTANT EXPANSION
—to serve Chevrolet owners better

SINCE January 1st more than a million new Chevrolets have been delivered to owners—making the Chevrolet Motor Company, for the second consecutive year, the world's largest builder of automobiles!

This outstanding achievement has been attained not only because of the quality and value of Chevrolet cars—but also because there has been a constant expansion of Chevrolet service facilities.

In order to bring these mammoth facilities of the Chevrolet factories to Chevrolet dealers and owners everywhere, there have been erected 26 huge parts warehouses in the principal centers of distribution. This expansion program is continually going on—for four great additional warehouses will be in operation by January first and seven more by the summer of 1929.

Into the service departments of all Chevrolet dealers, Chevrolet has brought special tools and shop equipment—designed under the supervision of Chevrolet engineers. This equipment definitely assures maximum speed and precision and the lowest possible cost in the performance of every Chevrolet service and repair operation—which are charged for on a flat rate basis.

Furthermore, all of these tremendous facilities have been made available to 15,000 authorized service stations manned by skilled mechanics, over 25,000 of whom have been factory trained to efficiently handle every repair operation on a Chevrolet car. In addition, there are over 4,000 other points where genuine Chevrolet parts may be obtained.

Uniformly efficient, uniformly reliable and within easy reach of everybody everywhere—this great service organization is maintaining at peak efficiency the fine performance for which Chevrolet cars have always been renowned.

We cordially invite you to come in and see how our service facilities reflect the influence of this great national service program.
