Almost every day teams are tied to trees along the street line. Not always but often damage is thereby done which can only be repaired by time. In most cases hitching horses to trees is pure thoughtlessness for a number of places have been provided for this very purpose. Often, too, we are sure the very ones hitching to trees are trying to grow a little shade at home and would be very angry if some person should tie horses to their trees. We would like to see this practice stopped and every effort made to help beautify our streets and not destroy the little that is being done.

There is a complete new set of officers in charge of the Commercial club. They are working for the good of the entire community and should have the support of all. So far, it strikes us, they have not received this support.

Possibly some day the west end will receive its just due. We certainly are not now in the way of road work. There are a number of bridges near Hermiston that are in a dangerous condition

and when some one is badly injured or killed the county will have a nice damage suit. A very few dollars now would make the needed repairs.

Will the highway across Umatilla county, the survey for which has just been completed, end at that? It will unless every section of the county is a unit.

There are more automobiles in the Hermiston country today than ever there were jackrabbits and new ones coming every day.

So many new people are moving into the Hermiston country it is difficult to keep acquainted with all.
