A Straight Tip on the Fuel and Lumber Situation
We are in the grip of the worst car shortage the world has ever known—and getting worse.
Ninety per cent of all fuel shipments will be made during the three summer months.
Next to fuel, shipments of silo and granary material will have precedence over all others—as this tends to increase the country's food supply.
May we suggest that you anticipate your wants and order your supplies at once.
We will be pleased to talk these matters over with you in person.

B. F. Knapp returned Thursday after an absence of a week. He will bring his family to Hermiston in another week.

C. P. Strain, county assessor, was here Thursday personally assessing the property of the business houses and also looking up a few the deputy had not secured.

C. A. White, of Scotts Mills, came in Tuesday to look around. Mr. White is almost as well acquainted here as our own residents and counts on moving over about September for the winter.

The Hermiston creamery has just had a new cement floor put down covering the entire work room. This improvement will make cleaning much easier and thereby tend to increase sanitary conditions.

A sale made this week by the Umatilla Farm Lands Co. was that of 45 acres to C. E. Spencer and two sons. The land lies immediately north of Mrs. Sapper's tract and is considered a good piece. The Spencers will start improvement early this fall, devoting all their spare time from present holdings to the new tract.

Dr. J. A. Campbell, who has had dental offices in this city the past two years, left Sunday for Portland. From there he will go to California and take the examination. He also expects to take the army examination. During his residence in Hermiston Dr. Campbell made many friends, especially among the young people. All regret his leaving. Dr. Frank Prime has purchased the office equipment and practice and is expected soon.

Because rhubarb leaves contain certain substances which make them poisonous to a great many persons, specialists of the United States department of agriculture warn housewives against using this portion of the plant for food. A number of letters have been received by the department calling attention to the fact that certain newspapers and magazines are advocating the use of rhubarb leaves for greens, and that disastrous results have followed the acceptance of the advice.
