TYPHOID is no more necessary than Smallpox. Army experience has demonstrated the almost miraculous efficacy, and harmlessness, of Antityphoid Vaccination. Be vaccinated NOW by your physician, you and your family. It is more vital than house insurance. Ask your physician, druggist, or send for "Have you had Typhoid?" telling of Typhoid Vaccines, results from us, and danger from Typhoid Carriers. THE CUTLER LABORATORY, BIRMINGHAM, CAL. PRODUCING VACCINES & SERUMS UNDER U. S. GOV. LICENSE

Still Interfering.
George Bailey of the Houston Post notes that "a New York redhead is suing a druggist for \$5,000 damages because of peroxide he sold her ruined "her crown of glory," and makes this comment:
"It is bad enough when tawny maned girls use peroxide. For a redhead to vandalize her topknot in any such way as that ought to be against the law, and no well regulated widow would think of doing so."

Betting on a Sure Thing.
Mrs. Dorcas—The women are determined on dress reform and sooner or later will devise a costume that is just right. Dorcas—I'll bet you it won't stay in style more than a couple of months—Life.

Wasted Land.
The department of agriculture finds that only 209 rods of untrimmed hedge waste an acre of land, whereas for the same expenditure of land one can run 473 rods of barbed wire fence.

Ready to Help.
Pedestrian—Do you go to school, my little man? Urchin—Sure! What is it yer want to know?—Boston Transcript.

A. S. Anderson, the man who supplies us with good butter, which he manufactures at the Hermiston creamery, sung a little ditty as he worked Wednesday morning, thus denoting that he was exceedingly happy. On being approached by a Herald reporter a smile illuminated his always cheerful countenance as he related the arrival of a baby girl at his home early that day.

When you want something in a hurry, when you want accommodation in the way of credit, when you expect a little community boosting, when you are looking for support for school and church, when you are expecting property values to keep up in your town, when there is sickness in your family and you need help and sympathy, you don't get it from the Portland merchant nor the mail-order house back east, says the Newberg Enterprise. You get all these things from the home merchant and the business men right here, who are your neighbors and friends.

A local woman came to town the other day with a basket of eggs and the grocer asked her how many dozen she had. "I won't say exactly," replied the woman, "but if you take the eggs out two at a time there will be an odd one left. If you take them out three at a time there will be an odd one left. If you take them out four at a time there will be an odd one left. If you take them out five at a time there will be an odd one left. If you take them out six at a time there will be an odd one left. But if you take them out seven at a time they will come out even." Now, reader, can you figure out how many eggs were in the basket as the grocer did.
