**HERMISTON LOCALS**

A most enjoyable dance was held in Butter Creek hall Friday evening of last week which was well attended, many Hermiston people being present.

Miss Georgia Skinner, who has been spending the summer in Laidlaw, this state, came home Tuesday for a short visit before going to Lewiston, Idaho, to attend Normal school.

As everybody all over Oregon knows, the price of hogs is up. Nails are on the rise, too, as every Hermistonian is aware when traveling over the board sidewalks of this city.

Mrs. Waller went to Pendleton Tuesday to take a course in Red Cross sewing and knitting. Returning the middle of the week, she reported her progress at the meeting of the local society held in this city Thursday.

Dr. F. V. Prime, the local dentist, has taken a three year lease on the M. D. Scroggs residence on East Ridgeway street, and with his family will move therein the first of November, or thereabouts.

Thomas Hawthorne, assistant engineer in charge of construction on the western extension, has received notification from the reclamation service of his transfer to the Rio Grande project in Texas and New Mexico.

Mrs. E. D. Sage of Eugene is spending the week here visiting at the homes of her sisters, Mrs. W. H. Skinner and Mrs. W. R. Longhorn. She is on her way to Lewiston, Idaho, to pay a visit to the parental home.

At a recent masquerade ball given by the Lehman and Hildaway campers one of our Hermiston ladies, Mrs. J. D. Watson, carried away the ladies' prize, having been cutely dressed as a young school girl.

Sergeant J. F. Morfitt of Troop B, First Oregon Cavalry, left Tuesday for Clackamas to rejoin his company after passing his leave of absence in this city visiting Mrs. Morfitt and her parents.

Robert West, machinist's mate in the U. S. navy stationed at Bremerton, Wash., left Monday to renew his station on the expiration of a week's furlough most pleasantly passed visiting at the home of his parents, Mr and Mrs. J. S. West, in this city.

Henry Weimer, who recently acquired ten acres of land a short distance west of Hermiston, has erected a small dwelling house on the property. This fall he will seed five acres to rye and alfalfa, and early in the spring next year he will prepare the balance of the land and put it in crop.

The transfer business operated by the Beasley boys for some time has been taken over by their brother in law, Al. Barnard, who will conduct the business in future. It is understood that Art Beasley will attend school this winter, while his brother Gordon will seek outside work, having gone to Pendleton Monday for that purpose.

Mr. and Mrs. R. W. Allen arrived home Sunday from Corvallis, where the lady has been all summer visiting relatives. Returning from a trip to the Truckee-Carson irrigation project in Nevada, and also the government-owned Orland project in California, Mr. Allen stopped at Corvallis and accompanied his wife on the homeward journey.

In order that the dining room of the Hotel Oregon might be thoroughly renovated and needed repairs made, that department of the hostelry has been closed down for the time being. Believing the time propitious to take a little summer vacation while this improvement is going on the proprietors, Mr. and Mrs. H. S. Anderson, are taking a well earned recreation jaunt for ten days to coast points.

Mrs. F. A. Phelps, who with the assistance of Mr. Phelps conducts the Phelps Cash Grocery store in this city, went to Portland Friday of last week, where, upon her arrival in the Rose City, she was met by her brother, Joe Miller, deputy United States marshal for Alaska, who was on his way to his far northern home after a business visit to Washington, D. C. The lady returned the latter part of this week, and during her absence Mrs. C. M. Voyer, daughter of Mr. and Mrs. Phelps, came up from Boardman and helped in the store.

Contractor A. H. Beisse returned from Portland last Saturday morning, and while there he purchased a hand mixing machine for concrete work from the T. L. Smith Co. of that city. He intended to buy a power mixer for use in the work of laying concrete sidewalks in front of the Hermiston Produce & Supply Co. store, Hitt's confectionery and Hahn's shoe and harness store, which he constructed the first of the week, and also on other contracts which he has on hand. On arrival in Portland, however, he found the supply of power mixers exhausted, and therefore he had to take the next best thing, which was the hand mixer—which really does good work with a little more labor than if power driven.

For Sale—Sixteen head Jersey cows and heifers, also registered Jersey bull. Reason for selling, no feed.

Thomas MacKay, one of the old-timers of the project, was in from his well improved ranch between here and Umatilla last Saturday transacting business and mingling for the time being with city folks.

Newell West, who was here last week on a visit to his parents, is now holding down the situation of agent and operator at Reith, having recently been transferred by the O. W. company at his request from Meacham to the above place.

Frank Fowler, who is manager of the 320 acre alfalfa ranch in Butter creek recently bought by Tillamook dairymen, has begun the work of baling the immense tonnage from the land, and expects to ship 1000 tons this fall to his people in Tillamook.

Rev. Graham left Tuesday evening for North Yakima to attend the annual conference of the Methodist church, holding in that city from Wednesday of this week to Monday next. In the selection by the conference of ministers for different localities, Rev. Graham expects to be again assigned to the local pulpit.

B. J. Nation, one of the well to do ranchers in the Butter Creek district, who has 50 acres under the Western Land & Irrigation Co. canal, informed us while in Hermiston on business Tuesday that out of his 50 he will have 150 tons of alfalfa, three cuttings of which he has already sold. He says that ranchers in that neighborhood are being offered \$17.50 for the hay in stack.

Dr. D. quer, who has done much toward starting and putting on a sound financial basis a Socialist colony at Llano Del Rio, California, situated near Los Angeles, gave a very interesting lecture to a good sized audience in the local Baptist church Monday evening on industrial conditions as they exist in the United States today, interspersing with historical happenings leading up to the all-absorbing world's war now in progress in the old countries, and offering solutions to international and other problems confronting this nation at the present time. Laying aside all prejudice, the lecture was interesting from an educational standpoint.
