## TESTIFY AGAINST POSTOFFICE BURGLAR

Postmaster J. A. Young returned from Portland Sunday morning, after having been there a couple of days again testifying against Frank Pelisser, the yeggman who was one of the party of robbers that burglarized the local postoffice some time ago. Sheriff Taylor, who in endeavoring to arrest Pelisser near the mouth of Juniper canyon a day or two after the robbery engaged in a revolver duel with him, was also there, and positively identified him as the man with whom he had the armed battle. The case had not been concluded when Mr. Young came home, but it is his belief that the evidence is sufficient to convict.

## HEARD VICE-PRESIDENT MARSHALL SPEAK

Quite a number of Hermiston people went to Pendleton Tuesday to hear the war speech of Vice President Marshall, among them being Mr. and Mrs. T. Campbell and Mr. and Mrs. George Beddoe and son, the latter three having been visitors in the county seat the past three weeks, during which time Mr. and Mrs. Beddoe have been looking after residence property they own there.

## ENTERTAINED 40 OF HER YOUNG FRIENDS

Miss Frances Hinkle was a delightful hostess last Friday evening to about forty of her young friends when she entertained at a Halloween party at the lovely home of her parents, Mr. and Mrs. J. T. Hinkle, on South Hill. Elaborate decorations appropriate to the occasion were used to adorn the living rooms and halls. Dancing, music and delicious refreshments were features.

**Grass as It Grows.**  
It may be a matter of surprise that tender young grass can ever force its way up through hard ground. The principle is the same as that of opening a tin of condensed milk. The sharp point of the tin opener is first inserted in the tin and when an entrance has been forced the blade can follow. So it is with the grass. Each blade has a fine point, which, by the mysterious power of growing life, forces its way between the particles of soil. However tightly they may be packed together, and thus a passage is made for the blade to follow.

**Alaska's Tanana Fields.**  
The Tanana coal field, Alaska, will be tributary to the government railroad now under construction from Seward to Fairbanks. Though the coal in this field is lignite and hence of low grade, yet it has great value as a source of fuel and power for Fairbanks and other Yukon placer camps. The field is about sixty miles south of Fairbanks. It is estimated by the United States geological survey that the Tanana field contains some 10,000,000,000 tons of lignite.—Argonaut.

It is a historical truth that no industry is destroyed without pulling down some other in its fall. The District of Columbus goes "dry," and now watch the withering of those choice congressional mint beds.

In other words, while the costs of most commodities have been increasing by leaps and bounds, lumber and the products of lumber have been among the last to feel the effect of the changed conditions and the advances in prices have been but nominal.

THE CROP DOLLAR IS BIGGER TODAY THAN IN YEARS. INVEST IT IN BUILDINGS.

But, will prices not go down when peace is declared? Can't I save by waiting? are the questions asked by every builder. The answer is that no one in a position to judge intelligently believes that prices will go back to the old low basis for a long time—because of the enormous demand abroad for building material to rebuild Europe, and the immense demand at home.
