WESTLAND
Only two people refused to sign the Hoover food pledge ca. c.

Six carloads of baled hay have been shipped to Tillamook, Oregon, this week, the shipper being Frank Fowler on Butter Creek.

James Ware and sons are making some extensive improvements on the Eugene ranch. One is the building of a very large barn for housing horses, cattle and hay.

William McMurray has got the bug, and is sporting a Ford touring car.

The building of the new school house is at a standstill. A. D. Smith says he is unable to get help on account of the shortage of labor.

IRRIGON NEWS ITEMS
SPECIAL CORRESPONDENCE

Ben Smith spent Sunday with friends in Hermiston.

W. W. Caldwell was down from Hermiston the first of the week on a visit to the parental home.

The old fashioned taffy pulling parties seem to be the order of the evenings the past week, the first being at the home of Eric Rider. Wednesday night he came in with a hayrack and took a load of young people to his ranch home. Reports are to the effect that everyone present had the sort of time they usually have at taffy pulling parties. The second was given by Miss Esther Graybeal at her home Saturday night, and a good time is reported by all who were lucky enough to be there.

Fred Erwin was down spending the week-end with his sister, returning home Sunday afternoon.

Mrs. Lester assisted the teacher in the sewing club work last Friday afternoon and it is not to be wondered at that the club is doing splendid work with such good help.

Mr. Rider has brought his sorgum mill to the home of Mr. Graybeal and is grinding the juice out of the cane for that family's use. They will practice Hoover's plan this winter by using sorgum instead of sugar.

Fred Davis came in with two large honkers last Saturday evening.

Mrs. Lane is sick with the grip this week.

Miss Lois Samson came home Saturday to spend the week-end with her parents, returning to Umatilla Sunday afternoon.

Mr. Lane left Tuesday for Prineville where he expects to enter the employ of the Newport Construction Co.

The professor is getting to be a rancher as well as teacher, if owning cows, pigs and chickens can be classed in the agricultural line. He has bought a fine cow and will cut down the high cost of living this winter.

The high school pupils are testing milk cows these days and everyone with poor milk cows will have no excuse for keeping unprofitable dairy stock. When the milk tests less than four per cent the cow should be sold for beef. Peggy and Topsis

BUY YOUR FUEL NOW

We are in the midst of the worst coal famine that the west has ever seen.

The car shortage and the labor problem has limited the output of the Utah and Wyoming mines to such an extent that they cannot begin to fill their orders.

We expect to have a

Car of Rock Springs Coal

on track the first of the week, which will be \$10 out of car.

So take advantage of it and stock up.

When in town come in and give our Cedar Stock the once over and see what you need.

3 lb. blue can brand 90c

"The Mystery of the High School Basement, or Who Broke the Water Pipe," still remains unsolved.

It is a trite saying that the business man who does not advertise in his local paper has no right to complain about the mail order house taking his business away. While public spiritedness in a few men may keep a town on the map, it requires the co-operation of all to build a real community center.

With the new postage rates in effect we are now buying three cent stamps instead of twos, says the Milton Eagle. The three-cent postage will not be felt to any marked degree by individuals, but considered nationally will amount to millions of dollars to help win the war with Germany. It's one way of doing a "bit" toward licking the Kaiser.

Property in this county will be assessed at eighty per cent of its value, according to the ruling of the state board of equalization, and it is upon this ratio that railroads and other utilities will be taxed. The state commission assesses these public utilities at an estimated cash valuation, with the result that in this county they will be required to pay eighty per cent of that valuation.

Cut the High Cost of Living

and combat the scarcity of milk and butter by buying a cow or two.

Thirty head of dairy cows, mostly high grade Jerseys; 23 yearlings, coming two, most of them will be fresh in the spring; a two-year old registered Guernsey bull, guaranteed a sure calf getter. His sire was champion and grand champion Guernsey bull at the Oregon State Fair two years.

Also an 18-horsepower Almo gasoline engine on truck.
