## The Money-Maker on the Farm Today

Is a silo because it means the raising of more stock with less work and worry. We make a specialty of silos and can give you many helpful pointers on the building, its uses, material and cost. Let us show you the superiority of wood over all other materials. We have the blueprints and all material you will need right here in stock. Come in and talk it over. Plan to build early. Be ready three months before your crop is, rather than a week late.

### Joy Riders' Hard Luck

Pulling up in front of a business house one evening this week George Challis left his auto running while he stepped inside to make a small purchase. Imagine his surprise on returning to find the "bug" gone. Search was at once instituted, and the machine was found a little later in the eastern portion of the city with two young ladies taking turns at the crank shaft of the "stubborn thing" in an endeavor to start it. The auto went "dead" on them as they tried to make a fancy turn on a corner, and there and then their joy ride came to a halt. George had it in his mind's eye that the auto was stolen and he would never see it more, therefore he was a tickled youth when it was recovered so quickly.

### THEY WANT STRAIGHT EYES.

So Natives in Japan Are Resorting to the Surgeon's Knife.

You think that it is impossible to mistake a Japanese on account of his almond eyes, peculiar to the yellow race. Do not be so sure, for it is quite likely you are wrong.

Of recent years a curious fad has taken root in Japan. This is nothing more or less than the alteration, by the surgeon's knife, of the shape of the eye, so that in future the Japanese will not be distinguished as one of the "almond eyed" races. The operation is said to be simple and quite painless.

The surgeon takes a scalpel in his right hand and, stretching the skin with the forefinger of his left hand, makes an incision on the outer point of the eyelids in a straight line for the barest part of an inch. The lashes are then drawn into shape and held firmly by a piece of chemically prepared plaster.

The wound needs no further dressing, and the subject of the emperor of the Flowery Kingdom goes on about his business as if nothing had happened. In a few days it is entirely healed, when the surgeon is visited and requested to remove the plaster, and with the plaster comes the fee.

The Japanese say that their eastern, not to say Mongolian, appearance is a disadvantage to them in their commercial and other relations with western races. Whether this is so or not, it is a positive fact that some of the highest officials in chrysanthemum land have fallen in with the popular fancy, and European medical men out there are making lots of money by the use of their scalpels. One authority states that the mikado himself has had his eyes "westernized."

### Mouth Wash.

Dr. A. B. Wadsworth, director of the division of laboratories and research of the New York state department of health, recommends a mouth wash made as follows:

Sodium chloride, half a dram; sodium bicarbonate, ten grains; distilled water, two ounces; glycerin, one ounce; alcohol, five ounces; thymol and menthol, one gram of each; oil of wintergreen, three drops; oil of cinnamon, two drops; oil of eucalyptus, five drops; tincture of iodine, one and a half drams; tincture of rhatany, half a dram.

Dissolve the salts in water before adding the alcohol. For use add an equal part of water.

## ANNOUNCEMENT

To the people of Umatilla and Morrow counties:

The only representative Morrow county has in the state legislature is that of a joint representative with Umatilla county. For the past three sessions such representative has been a Umatilla county man. Out of a spirit of fairness, the Republicans of Umatilla this year seem to concede the naming of a Republican candidate for this office to Morrow county.

Under the circumstances and at the solicitation of many people of my county, I offer myself as Republican candidate for joint representative for Morrow and Umatilla counties at the coming primary election.

By profession I am a lawyer. I have lived in Oregon nearly all of the forty-five years of my life and in Morrow county for the past fifteen years. My small accumulations have been gathered in Eastern Oregon and my interests are here.

If nominated and elected as your representative, my first concern in general shall be such legislation as shall secure the most hearty and effective co-operation of our state with the National government in the winning of the present war and in paving the way for a speedy and sound reconstruction for all concerned after its close. Locally I shall favor every legislative effort for the betterment of the people of my district consistent with the paramount duty of bringing victory to our armies. Sincerely,  
C. E. Woodson
