THE Hermiston Herald

Makes Clubbing Arrangement With

The Oregon Farmer

Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE OREGON FARMER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE OREGON FARMER, will be entitled to receive THE OREGON FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.

208 PAPERS FOR \$1.50—2 FOR PRICE OF ONE

The Herald every week for one year and The Oregon Farmer every week for THREE YEARS, all for only

\$1.50

This is merely the price of The Herald alone

LOCAL BRIEFS

Miss Viola Crandall is now manager of The Movie theatre, Miss Gladys West having resigned.

Workmen put a new roof on Hitt's confectionery store this week, the old one having become leaky in places.

Jack Gorham, rancher at Boardman who formerly lived here, returned to his home Monday after a visit of several days with friends in and around Hermiston.

Harry McMillan and Henry Notz arrived home Sunday after doing Pendleton by daylight, electric light and moonlight during a short visit the latter part of last week.

There will be a special meeting of the ladies of the Altar society at the home of Mrs. F. A. Chezik on Wednesday afternoon of next week.

Vineyard Lodge No 206, I. O. O. F., will attend special memorial services at the Baptist church Sunday, June 2. Stanfield lodge has been invited, and soldiers and sailors of all wars are extended an invitation to attend.

F. W. Kehrl and County Agricultural Agent Shrock have been circulating among ranchers here this week making a survey of the blooded dairy stock, and later we hope to be able to give a statement of their findings.

Another Hermiston boy has shown his patriotism by joining the radio branch of the navy. The young man is Louis Garner, who went to Pendleton Wednesday morning, passed the examination and left the same day for Portland.

At the regular meeting of the local Mason's order Tuesday evening Thos. Hurlburt of near Stanfield was initiated into the mysteries of the first degree and Chief of Police Ross Laudenslager of Hermiston passed through the second.

R. A. Brownson, manager of the Tum-a-Lum Lumber Co., is fast becoming proficient in the art of driving an auto that his company has supplied him with, and says he finds it very efficient in the work connected with calling on ranchers and giving estimates on lumber.

Flower beads of many different colors, which are made from the petals of flowers by old and young in mission schools of California, are on display this week in the window of the Hermiston Drug Co. It is said that the beads always retain the sweet odor of the flower from which they are made.

Eli Winesett and P. F. Ward returned the middle of the week from Heppner, where they went Monday last in the former's auto to look at a ranch owned by Mr. Winesett in that neighborhood that he secured in trade quite a while ago, and which he had never seen until his visit to it this week. The unsight and unseen swap proved all right, according to the gentleman.

After an absence of two years visiting with her grown up children in the middle states, where she went to seek relief from asthma, Mrs. Hay, wife of C. B. Hay, an employe of the Newport Construction Co., arrived in Hermiston from New Salem, N. D., Monday evening to again take up her residence here, her health having been much improved.

Mrs. W. A. Miresell is the champion woman fisherman in this neighborhood, having landed a big salmon trout while angling Wednesday at Cold Springs reservoir. Mr. Mike Sell, who was also indulging in piscatorial pastime, got nothing but a few good sized mosquito bites, all of which added to his chagrin over his wife outdodging him by catching the big fish.

NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office at La Grande, Oregon, May 3rd, 1918. Notice is hereby given that Rudolf Schaebermeyer, of Hermiston, Oregon, who, on June 24th, 1911, made Reclamation Homestead Entry No. 09255, for Farm Unit "E" in NE 1/4, being NW 1/4 NE 1/4 section 28, township 3 north, range 28 east, Willamette Meridian, has filed notice of intention to make five-year proof, to establish claim to the land above described before W. J. Warner, United States Commissioner, at his office at Hermiston, Oregon, on the 25th day of June, 1918. Claimant names as witnesses: Schadrach C. Nichols, Thomas Mackay, William S. Mitchell and James Eddie, all of Hermiston, Oregon. Not coal land. C. S. DUNN, Register

OLD SOL TO BE TOTALLY ECLIPSED

On June 8th Next a Path of Darkness Will Extend Entirely Across the United States About Midday

Headlights burning at midday in order to light up the darkness that will come with a total eclipse of the sun. This is what is to happen on the Union Pacific System on June 8th next. The Union Pacific will have practically a monopoly on the eclipse, the path of totality following its lines across Colorado, Wyoming, Utah, Idaho, Oregon and Washington. The need for turning on the headlights is no joke. The moon is the cause of it all. On that date Luna becomes looney and steps directly in front of old Sol, shutting out the light almost as completely as if an incandescent globe had had its current switched off. Among the peaks that tower around Denver and in Rocky Mountain National Park; in the canyons near Ogden and Salt Lake City, where you see the Devil's Slide; through the dense forests and mountain defiles on the way to Yellowstone Park, and down the Columbia River gorge, where you see Multnomah Falls, Mount Hood, and the famous Columbia River Highway, the darkness will be more real than out on the plains. Never before in the history of the world has a single railroad system had a monopoly on such an important event as an eclipse of the sun, and for that reason the Union Pacific System is getting everything in readiness to be host to the rest of the country, who may want to journey out to the mountains to take a look at their private eclipse which they have all ready to pull off in their own front yard. Scientists, near-scientists and just curious will make the trip and they will be given a regular little eclipse, too. The West always does these things better than other folks. Quite some time will be consumed in getting the moon directly in front of the "boss" and it will take a little while to get her away again, but she will "hesitate," that is, she will demonstrate once more, to old Sol, that he is not the whole thing and shut him out "totally" for nearly two minutes. That is the time the lights will have to be turned on, if during those two minutes the busy hands of the mothers, sisters and sweethearts are to continue with sweaters and mufflers, and the Union Pacific

near its base are making plans to supply their guests with smoked glass and other things through which they can observe the appearance of the sun during the time he is put in the shade by the moon. Other well known points on the Union Pacific System are getting ready too. Among them are: Pocatello, Idaho; Baker, Oregon; The Dalles, Oregon; Heppner, Oregon; Chehalis and Hoquiam, Washington. Sulphur Springs and Central City, Colorado, which are a little off the line of the Union Pacific, are also getting ready. Portland, Oregon, will witness a 98 per cent eclipse and Seattle, Washington, 98 per cent. It is up in the mountains and on the high plateaus, however, where the eclipse will be best observed because of the cloudless skies, the rarified air and the absence of dust and smoke, which interferes in the lower altitudes. For this reason, it seems certain that more scientists will travel over the lines of the Union Pacific System early next June than have visited the western country for many years. While the Union Pacific System and the cities and towns through which it runs in the states named above will have a monopoly on the total eclipse there will be a partial eclipse over almost the entire area of the United States and a considerable portion of Canada, ranging from 68 per cent of total at New York City to 74 per cent at Los Angeles, and from 99 per cent at Tallahassee, Florida, to 98 per cent at Seattle, Washington. Other cities and the degree of totality are as follows: Minneapolis, 78 per cent; Chicago, 80 per cent; Galveston, Texas, 88 per cent; Philadelphia, Pa., 71 per cent; St. Louis, Mo., 88 per cent; Cheyenne, Wyo., 97 per cent; Helena, Mont., 92 per cent; Omaha, Neb., 88 per cent; New Orleans, La., 95 per cent; Lincoln, Neb., 90 per cent; Jacksonville, Fla., 96 per cent; Salt Lake City, Utah, 97 per cent; Topeka, Kan., 92 per cent; Albuquerque, N. M., 89 per cent; Atlanta, Ga., 92 per cent; Des Moines, Iowa, 85 per cent; Pierre, S. D., 86 per cent; Detroit, Mich., 74 per cent; Phoenix, Ariz., 79 per cent; Madison, Wis., 74 per cent; Spokane, Wash., 92 per cent; Bismarck, N. D., 81 per cent; Pittsburg, Pa., 74 per cent; Louisville, Ky., 84 per cent; Nashville, Tenn., 90 per cent; Reno, Nev., 87 per cent; Sacramento, Cal., 82 per cent; Raleigh, N. C., 82 per cent; Mount Hamilton (Lick Observatory), Cal., 78 per cent; Mount Wilson (Carnegie Solar Observatory), Cal., 74 per cent; Portland, Me., 60 per cent; Portland, Ore., 99 per cent; Colorado Springs, Colo., 89 per cent; and Boston, Mass., 63 per cent. All who can get ready for a trip to the mountains over the Union Pacific and see a real eclipse of the sun. If you can't come, get your smoked glass ready and on June 8th—about noon—go out into the back yard and take a look.
