

## How We're Going to Help Uncle Sam Put More Money into Hermiston

(Explaining the use of the "Trade Acceptance" in plain terms)

In order to put more money in circulation throughout the country Uncle Sam has created the Federal Reserve Banks.

### Here's How It Is Done

Suppose John Doe has purchased merchandise to the extent of \$40 from Richard Roe & Co. and desires credit on same longer for 60 days.

The banks have furnished a "Trade Acceptance" which looks like this.

Accepted.....Sept. 1, 1918 Payable at.....(Name of local bank) By.....(Bank Address) Per.....(Firm Name)	Trade Acceptance
	RICHARD ROE AND COMPANY Hermiston, Ore., Sept. 1, 1918
	On.....Nov. 1, 1918.....pay to order of ourselves.....Forty.....DOLLARS.....\$40.00
	Plus interest at 8 per cent after date.
	The obligation of the acceptor of this bill arises out of the purchase of goods from the Drawer.
	VALUE RECEIVED AND CHARGE TO ACCOUNT OF
	To.....John Doe.....RICHARD ROE & CO. Hermiston, Ore.....By.....

Mr. Roe then takes this Trade Acceptance to his local bank who sends it in to the Federal Reserve Bank nearest and this money is then credited back to the local bank for FURTHER CIRCULATION IN HERMISTON.

The Trade Acceptance has been recommended by Uncle Sam in these war times. We feel that it is a patriotic duty to use this form of extension of credit at this time and thus HELP UNCLE SAM PUT MORE MONEY INTO HERMISTON.

For further information consult your banker or we will be glad to explain.

### S. M. FELTON

Samuel M. Felton, president of the Chicago Great Western, who rehabilitated the railroads of France.

## TREASON OF LENINE AND TROTZKY PROVED

Washington.—Proofs removing any doubts that Lenine and Trotzky, the Bolshevik leaders, are paid German agents are laid before the world by the United States government in an amazing series of official documents disclosed through the committee on public information.

Secured in Russia by American agents, these documents not only show how the German government through its imperial bank paid its gold to Lenine, Trotzky and their immediate associates to betray Russia into deserting her allies, but give added proofs that Germany had perfected her plans for a war of world conquest long before the assassinations of Sarejevo, which as the world is now convinced conveniently furnished her pretext.

These documents further show that before the world war was four months old, and more than two years before the United States was drawn into it, Germany already was setting afoot her plans to "mobilize destructive agents and observers" to cause explosions, strikes and outrages in this country and planned the employment of "anarchists and escaped criminals" for the purpose.

### NEW PART PAYMENT PLAN

New Liberty Bonds Sold on a Very Liberal Basis.

San Francisco.—A new plan of partial payments on Liberty bonds in the forthcoming issue has been adopted by the United States treasury department, according to instructions from Washington received here by James K. Lynch, governor of the federal reserve bank for the 12th district.

These new partial payments, as outlined in the instructions, will range from the initial payment of 10 per cent through the subsequent payments of 20 per cent up to the final payment of 30 per cent.

The bonds will be dated October 24. Following the initial payment of 10 per cent, the second payment of 20 per cent will be due November 21, 20 percent will be due December 19, a similar payment January 16 and 30 per cent January 30.

### American Losses at St. Mihiel Light.

London.—Secretary Baker in an interview declared that the American casualties in the St. Mihiel salient were surprisingly small considering the scope of the operations. Very few men were seriously injured, he said. The majority of the wounded were only slightly hurt and will quickly recover.

### Siberians Declare War on Germany.

Olovannaya, Trans-Baikal.—The Siberian government at Omsk, a fortified town of Asiatic Russia, has declared war on Germany, and has ordered the mobilization of the 1918 and 1919 classes.

## YANKEES WIPE OUT ST. MIHIEL SALIENT

Americans Drive Enemy Back to the Wotan-Hindenburg Line.

With the American Army in Lorraine.—The St. Mihiel salient has been wiped out and the enemy forces are now virtually with their backs on the famous Wotan-Hindenburg line with the Americans and French paralleling them closely from Verdun to the Moselle.

Before the American attack the German defense caved in and Pershing's troops swept on hours ahead of their schedule.

The performance of the Americans stationed on the western side of the St. Mihiel salient, with the assistance of the French, constitutes one of the most brilliant pages of American history thus far in the great struggle.

It was this unit which accomplished two of the most notable strategic moves of the offensive. The first was the taking of Les Eparges hill, which had cost the French many casualties in the last four years. The second was the daring march of an American regiment at night through woods infested with Germans to Vigneulle, there to effect a liaison with troops working from the eastward.

In carrying out these two moves the allies encountered the stiffest opposition of the offensive. They fought desperately and counter attacked repeatedly.

Vilcey-Sur-Trey and Norroy, near the Moselle, were included in the territory regained by the Americans when the line stretching from the Hindenburg positions was swung slightly upward on the extreme right.

Both American wings are reported to be straightening out and co-ordinating their positions across the late St. Mihiel salient. Our patrols now control the area between the American lines and the Hindenburg reserve defenses.

The Germans are digging in far to the rear, rather than attempting to dispute the American gains effectively.

## AMERICANS UNDER FIRE FROM METZ

London.—General Pershing's army, according to reports, is making fine progress. It has advanced from two to three miles on a 3-mile front and the fortress guns of Metz have come into action against it.

The enemy appears to be withdrawing to some further line which will protect the railway communications in the vicinity of Metz, which at present are under the long-range fire of the Americans.

American patrols are advancing at various points a couple of miles beyond the general advances.

Six German divisions totalling about 60,000 men were operating in the St. Mihiel salient when the Americans began their attack, it has been learned. Of these fully a fourth were taken prisoners.

### 200 BIG GUNS CAPTURED

Great Quantities of Supplies and 15,000 Prisoners Taken, Says Pershing.

Washington.—In wiping out the St. Mihiel salient in 27 hours, American troops supported by French divisions captured 15,000 prisoners, more than 200 guns of all calibers, hundreds of machine guns and trench mortars.

This was disclosed by General Pershing's communique received at the war department.

The enemy was pressed so hard, General Pershing said, that he was forced to abandon great quantities of ammunition, telegraph and railroad material, rolling stock, clothing and equipment. In addition, he burned large stores.

### Air Combats Along Metz Front.

With the Americans on the Metz front.—Fighting near the Hindenburg line has largely been transferred from the ground to the air. With the Boche hurrying air reinforcements here, the concentration between the Meuse and the Moselle of air fighters of all types is resulting in constant air duels. Anti-aircraft guns are also continually barking along the whole front. Numerous Boche planes have been brought down. The American and French pursuit machines are keeping the enemy confined practically behind his own lines. Whenever the Germans cross the front they are speedily chased back. Meantime, day and night bombing by Americans, Italians and British continues actively.

### Galway Castle Sunk, 189 Missing.

London.—The British steamer Galway Castle, of 7955 tons gross, en route to South Africa, was torpedoed and sunk. She had 749 persons on board, of whom 189 are reported missing. The missing include 120 passengers, 36 naval and military officers and men and 33 of the crew.

## Mr. Customer:

Are you going to do any building or repair work this fall? Are you going to build a new barn, machine shed or root cellar?

Farm machinery is too costly to be allowed to remained out in the weather, while for a medium cost a good shed could be built to protect it from the elements. Proper shelter for the live stock soves feed and is true economy. Feed used by the animals to make heat can't put on flesh at the same time.

We must not let buildings go to rack and ruin because the country is at war, on the contrary the call is for economy and conservation through timely repairs.

Come in and see us.

**UNIVERSITY of OREGON** Training for Efficiency in Peace or in War

Fully equipped liberal culture and scientific departments. Special training in Commerce, Journalism, Architecture, Law, Medicine, Teaching, Library Work, Music, Household Arts, Physical Training and Fine Arts. Military Science in charge of American and British officers. Drill, lectures and field work all up-to-date, based on experience in present war. Complete system of trenches, bridges, etc. Students recommended for Commissions. Official government R. O. T. C. Tuition FREE. Library of 80,000 volumes. Dormitories for men and women. Expense lowest, much opportunity for working one's way. Write Registrar, Eugene, Oregon, for illustrated booklet.

## THE BUGLE CALL

Summons all the forces and resources of the Republic to the defense of Freedom

THE OREGON AGRICULTURAL COLLEGE which the United States authorities have ranked as one of the fifteen distinguished institutions of the country for excellence in military training, has responded to the call. The College is distinguished not only for its military instruction, but

DISTINGUISHED ALSO FOR—

Its strong industrial courses for men and for women: In Agriculture, Commerce, Engineering, Forestry, Home Economics, Mining, Pharmacy, and Vocational Education.

Its wholesome, purposeful student life.

Its democratic college spirit.

Its successful graduates.

Students enrolled last year, 3453; stars on its service flags, 1254 over forty percent representing officers.

College opens September 23, 1918

For catalog, new Illustrated Booklet, and other information write to the Registrar, Corvallis, Oregon

## Everything for the Builder

Can be found in our yard—from the foundation up. All lumber is thoroughly seasoned and in fine condition for immediate use. Our stock represents the output of some largest and best mills in the country, and the care we use in handling and storing insures you nice, bright, dry stock, easy to work and handle.
