Reconstruction Now

Reconstruction is the topic of the hour. All over the northwest meetings are being held, speeches delivered, reclamation plans discussed, cooperation of civic bodies, arranged. From small villages to large cities it is the one big subject uppermost since peace was declared.

On all sides the fact is recognized that new construction in every commercial and industrial line is a certainty. There will not only be a big building era in this country, but with construction virtually at a standstill over so much of Europe for four years there will now of course follow a great period of rehabilitation. In the United States new railroad construction and repairs alone will provide a big market. In addition to these lines there are the big reclamation projects proposed by the several states and encouraged by the federal government, chief among which is the one here.

BUTTER CREEK ITEMS

SPECIAL CORRESPONDENCE

The Flu is getting pretty bad on the creek this week; in fact so far there has been no improvement to speak of. The Huff family have all been moved to the emergency hospital in Hermiston. The Rhel family is the latest case so far.

Mr. Mapes of Tillamook motored down to the Creek Saturday, and reports the roads are in very bad shape for this time of the year.

Butter Creek land seems to be booming the last week, as there has been quite a few prospective buyers out here looking over farms near the mouth of the Creek.

Mr. and Mrs. I. D. Basey are at last moved into the Westland school house. There is also a section house at the city of Westland, but as the trains are all routed through Hermiston and school is closed on account of the Flu it does not seem as lively as it used to be.

UMATILLA ITEMS

SPECIAL CORRESPONDENCE

Mrs. Lachance of Yaquina is visiting her parents, Mr. and Mrs. Pike. Her husband is now in Vancouver awaiting the demobilization of the Spruce Division.

Francis Cavelles of Portland has entered the employ of the O. W. R. & N. in this city.

Earl Cherry, one of the pupils of the Umatilla school, is a victim of the Influenza.

The Jones-Scott Company of this place are rushing orders along by working their plant to the full capacity. An average of seven cars of sand and crushed rock are shipped from here each day.

H. O. Thompson, who lives on forty acres on the government irrigation project, is building a large dairy barn in order to utilize the enormous crop recently harvested on his farm.

Umatilla has the largest pay roll by far than any other town in the county, except the city of Pendleton. Farmers here are prosperous and independent. The sugar beet industry, bee keeping and poultry raising has added materially to their wealth.

Long Letter From Herbert Sullivan

(Continued from Page One)

The part of France that I saw before I reached Paris did not amount to a thing and I would not give Jake Stork's desert claim for the whole of it that I saw previous to the trip there; but it seems that all the good things of the whole country are centered right around Paris and it is sure a magnificent place. Boulevards are from one to two hundred feet in width with several side walks on each side, a couple of street car tracks, a division for cars and still another division for vehicles drawn by hand and by horses.

We saw the Invelades, and that is the place where there is a lot of captured German trophies of the war such as airplanes, guns, steel turrets and all that stuff. We were in several of the large cathedrals and they are wonderful. Was in the one where the tomb of Napoleon is, and most of it is all covered with sand bags to keep it from being destroyed by air raids but enough of it was uncovered so to be able to imagine what the rest of it was like. As to the bombardment of Paris, one could never imagine that there was a war in France except for the numerous numbers of uniforms on the street. There was a lot of American soldiers there and nearly any kind of a uniform that you wanted to name.

Say, do you know who I saw

there? Clarence Johnson, the great big giant. I ran on to him in the Y. M. C. A. where I had gone to mail some post cards that I wrote that morning. I sure was glad to see him or most anyone from old Hermiston. Did not get to talk to him long as he was going on a trip down the Seine river. I would give most anything to see some more of the kids that I used to know at home, but, don't suppose that I have much chance of doing that until I get back in Oregon. I think that we will leave here in about a week for the States as I don't think that we will go to England. I certainly would like to go to England and get a chance to see London and then I would be through traveling, as I think that I have nearly seen my share of the world for some time to come. Well, I have a new ribbon on this machine and it is too wet to write much more just now, so I think that I will knock off for this time. Love to all. H. J. Sullivan.
