NOTICE OF CONTEST
Contest No. 1227, Serial No. 015878. Department of the Interior, United States Land Office, La Grande, Oregon, March 7, 1919.
To Albert J. Moran of Echo, Oregon, Contestee:
You are hereby notified that Guy E. Knapp, who gives Stanfield, Oregon, as his postoffice address, did on February 8, 1919, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead Entry, Serial No. 015878, made May 10, 1916, for NW¼ NW¼, Section 30, Township 4 North, Range 29 East, Willamette Meridian, and as grounds for his contest he alleges that said Albert J. Moran wholly failed to establish residence upon said entry and wholly failed to cultivate or make any improvement whatsoever upon the same and on or about July 1, 1916, completely abandoned said entry and left the County and State in which said land is situated and has never since returned to said homestead; that the absence of said entryman from said homestead has not been due to his employment in any branch of the military service of the United States.
You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.
You should state in your answer the name of the post office to which you desire future notices to be sent to you.
C. S. DUNN, Register.
Nolan Skiff, Receiver.

The Christian preacher says it's a conundrum why his sermons are like modern female apparel. The answer is as to the length and whether they cover the subject.

Mrs. A. R. Hunter arrived from La Grande yesterday to visit her parents Dr. and Mrs. E. W. Barnes. The doctor has been seriously ill for some time and owing to his advanced age his recovery is exceedingly slow.

Rev. and Mrs. Graham and children came from Prosser, Wash., by auto Tuesday to pass a few days visiting with relatives in this city and vicinity. The gentleman was former pastor of the Methodist church here.

Two Chevrolet automobiles, one a 4-90 model and the other an FA, which designates the Baby Grand model, were brought from Pendleton Monday evening. These beautiful cars are handled exclusively by Lays' Garage.

James Todd is home from the navy on a thirty day furlough. For two years he has been in service, and relates some remarkable experiences. After his long absence he is enjoying his visit with his parents, Mr. and Mrs. R. C. Todd.

George R. Shafer has solicited orders for 168 queens, of the three-Band Italian variety. These bees will be secured from H. G. Gunn, San Jose, Calif., and on their arrival will be distributed among a dozen beekeepers on the project.

Optimistic Thought.
Gather roses while they blossom; tomorrow is not today.

Aquatic Plants.
Aquatic plants should not be planted in shallow ponds or lakes that freeze solid. No matter how thick the ice forms on the surface the plants will live if the water about them, under the ice, does not freeze. If ice forms about the roots of the plants they will be killed.

Don't Exaggerate.
The girl who stretches every statement she makes out of all resemblance to the actual facts of the case may imagine she is strengthening what she is trying to say. But that is a mistake. People who listen to an exaggerated statement invariably discount it, and usually more than it deserves, and in addition they feel a distrust of anything which has to be so overemphasized. Every exaggerated statement is weakened in proportion as it is exaggerated.—Grit.

LESSON NO. 2.
JOHNSTON ALFALFA MOWERS

This being the second of a series of instructive advertisements for the Johnstone Mowers, we go somewhat into mechanical details today. The Johnstone Mowers are built light but strong. THE MAIN FRAME is built of one piece. Because of its bracing it has great strength. STEEL DUST-PROOF ROLLER BEARINGS are used at both ends of axle and bevel gear shaft. A LARGE GEAR AND A SMALL PINION that mesh perfectly are used to transmit the power. The pinion is easily removed and the gears are protected by shields. The lever fold is an important feature of Johnstone Mowers and they are all equipped with this device. In raising the cutter bar the machine is automatically thrown out of gear when the bar reaches an angle of about 30 degrees, and is again thrown in gear when lowering it.
