Our Service

And What It Means to You

INVESTIGATE YOUR IMPLEMENT
NEEDS CAREFULLY

Whatever You Need—Repairs or New
Implements—We Can Supply
to Your Satisfaction

You wouldn't spend money to have an old pair of shoes half-soled and reheeled, when the uppers are about ready to break through, would you?

The same principle can be applied when you study whether you will repair an old implement or replace it with a new one.

There is only one question to consider:

Will the old implement, when repaired, give you full service for at least this year?

"Pretty good" service will not be enough. It is never enough, and especially not this year when good prices for farm products will put a premium on extra bushels and extra tons.

If you can repair any of your old implements for full service, that will be real economy, and we are anxious to help you put that economy into effect.

You can meet your repair needs to your full satisfaction through our repair service.

If repairing the implement doesn't assure the best of service, it will pay you to come to our store and select a new implement.

Investigate your needs now. And remember that we are ready to furnish whatever you need to your satisfaction.

We have just received a car load of McCormick Mowers and Rakes direct from the factory and our prices on them are the same as last season.

We carry a Complete Stock of Repairs for the McCormick Mowers and Rakes at all times and are therefore in position to serve you promptly, thus preventing loss of time on account of broken Machinery during the Haying Season.

We also have a complete stock of other Farm Implements on which our prices are right.
