Big stores draw trade from a distance. Big merchants go after the trade. This trade builds a town. A good town has better schools, libraries and churches, and better modern conditions of daily life. Implements—We Can Supply  
to Your Satisfaction

You wouldn't spend money to have an old pair of shoes half-soled and reheel, when the uppers are about ready to break through, would you?

The same principle can be applied when you study whether you will repair an old implement or replace it with a new one.

There is only one question to consider:

Will the old implement, when repaired, give you full service for at least this year?

If you can repair any of your old implements for full service, that will be real economy, and we are anxious to help you put that economy into effect.

You can meet your repair needs your full satisfaction through repair service.
