

#### NEW HARDWARE STORE

We wish to announce to the people of Hermiston and vicinity that we will open our store to the public Monday morning April 21st and we invite an inspection of our new personally selected stock of hardware. The line is very complete and good values for money asked will, without doubt, be appreciated by the public. In place of trying to list the many things on display, we invite you to come in and look over the line, all of which was selected by us in person from the general hardware and house furnishing stocks at the wholesale houses. The fact that the entire stock is new, with no chance of shop worn stock possible, it will be to your advantage to consider this new stock in your hardware and house furnishing wants. Many articles never before carried in Hermiston stores will be shown and we desire every one whether in need of anything in our line or not, to call and inspect this new stock.
