B-H
Floor Paint

Springtime is "clean-up" time

While you are doing your spring cleaning, consider the need of repainting your floors. A painted floor is a clean floor—or, at least is easily cleaned. No cracks; no germ-catching worn spots; no unsightly blemishes.

B-H Floor Paint is made in California for Pacific Coast conditions and climate. Spreads easily—a quick dryer—forms a hard, yet elastic coating which lasts and wears twice as long as the average paint.

There is a B-H product for every use. Call today and let us prove it to you!

A Look at Mexico

(Contributed)
Mexico, with a population of 15,000,000, is more than 80 per cent illiterate. Superstition and immorality are interwoven even in the religious life of the nation. The aboriginal inhabitants, the Indians, and the mixed race of Spanish and Indian stock, are peons. The country has suffered greatly from revolutions, famine and disease. Our Government has invested more than \$200,000,000 in the Mexican problem and the problem is yet unsolved. She will be a source of ceaseless anxiety to the people of the United States until its national thinking and ideals are brought to a higher level. With all his great wisdom and skill, President Wilson has not found a way for regulating the internal affairs of Mexico short of military intervention and military intervention is not the establishment of democracy. The only solution of the Mexican problem is the invasion of Christian preachers, teachers and physicians, the establishment of churches, schools and hospitals, in order to enable Mexico to realize her own destiny of self-government and the moral and spiritual progress.

The Methodist Centenary has a program for supplying these needs. Through this it is proposed to restore our property damaged by the revolutionists, improve the accommodations, equipment, and teaching force of our schools, thus providing evangelical leadership for society as a whole; co-operate with other Evangelical bodies in establishing a Union Theological Seminary in Mexico City; enlarge our medical work to meet the physical needs of the country, and by example teach civic betterment; and furthermore to insure expansion of evangelistic work to take advantage of the liberalizing influence turning to God for help. The largest public congregation in the City of Mexico, Protestant or Catholic, meets in the Methodist Episcopal Church.

In a very real sense this will also be a patriotic service to the United States, by helping to make of Mexico a "safe and sane" neighbor.

Investigate First.
Beware of wolves in sheep's clothing. Those who have get-rich-quick securities such as stocks and bonds that pay unheard of dividends are "fleeing" many. Investigate such schemes before giving up your cash.

Electric Light in Vatican.
Electric light was used in theistine chapel of the Vatican palace for the first time on the occasion of the third anniversary of the coronation of Pope Benedict XV. In former years candles were used to light the chapel, which is dark except on sunny days.
