ARE YOUR LAUN- DRY BILLS HIGH?

Just think of what you are paying for only half washed laundry when sent to commercial laundries and also think of the short life of your clothing. Then think of a nice Electric Washing Machine that will do this work at home the way it should be done, clean, and without strong acids eating up your clothes. After you weigh this in your mind, come in and see the wonderful Grinnel Electric Washer that costs less than 2 cents per hour for electricity at Hermiston rates. A year of the amounts the ordinary family pays the commercial laundry will pay for this wonderful machine, and we even sell on terms not much harder to pay than the weekly washing.
