When the fighting was thickest—
 When the suffering was greatest—

Where was the Salvation Army Lassie?

He'll say:

"She was right on the job"

And now, back home—in the byways and hidden places—where misery always lives, where a mother needs a home, where men, women and children are on the downgrade, she's still "RIGHT ON THE JOB."

Automobiles represent the realization of a conscientious effort to combine in a nearly ideal measure as possible the highest degree of mechanical efficiency, beauty and comfort in low-priced cars.

They are built with a complete understanding of what is expected of the present-day motor car. They are built to give every-day service at low expense. There are hundreds of thousands of Chevrolet cars in use. This, in itself, is proof that they do what is required of them.

The Chevrolet Motor Co. has appreciated from the beginning that each automobile purchaser looks upon his investment as one of great importance. He is spending hundreds if not thousands of dollars or more and wants to feel that he is going to receive full value for the amount. The Chevrolet popularity is due to these things. By serving the public efficiently the Chevrolet has been a success from the beginning.

Whether you want an automobile for business or professional purposes, for country or recreative uses, for two or for five passengers, you will find a Chevrolet model that will fulfill your requirements as to design, quality and price. All Chevrolet models are fully equipped—electric starter and lighting system, one-man top, demountable rims, extra tire carriers, tilted windshield, speedometer, robe and foot rail—everything that comfort and convenience dictates—no "extras" to buy.—LAYS' GARAGE.
