NOTICE

In the County Court of the State of Oregon for Umatilla County, in the Matter of the Organization of HERMISTON IRRIGATION DISTRICT.

To whom it may concern: You are hereby notified that the undersigned petitioners in the above entitled court for the formation of the Hermiston Irrigation District in Umatilla County, State of Oregon, under and pursuant to Chapter 357 of the General Laws of the State of Oregon, for 1917, and acts amendatory thereof, will present the above and foregoing petition for the formation of said irrigation district to the Honorable County Court of Umatilla County, Oregon, at the chambers of said Court in the Court House of said county at Pendleton, Oregon, on the 5th day of November, 1919, at the

Necessity For Increased Telephone Rates

Increased telephone rates are necessary to meet increased costs.

Recent increases in wages alone to employees totaling for the state of Oregon upwards of \$225,000.00, made an increase in telephone rates not only necessary but imperative to pay these wages.

The net return to the Company under the rates now in effect is less than 3 per cent on the valuation of its property at \$13,282,378.00, as found by the Public Service Commission.

Would you be satisfied with such a return on the capital you have invested in your business? Would you consider it sufficient?

There has been no general increase in telephone rates for many years. Every user of a telephone who stops to think knows that we would be paying an inadequate rate now if he was not paying substantially more than he was before the war.
