That City Charter

Hermiston's city charter came in for a good raking over at the Commercial Club dinner at the Hotel Hermiston last Tuesday. It was raked up one side and down the other as being a detriment to the development of the town. The discussion took up about all of the Club's time, but it was thorough, and may be the means of bringing about a change in it, or maybe a new city charter entirely.

Did You Ever See a Shoe Like This

ITS insole was cut from paper—very likely the counters are paper, and also several lifts of the heel are paper. Such shoes, when wet, won't hold the stitching—their outsoles come off, the counters break down, heels become spongy, and the whole shoe ill-shaped.

These things are used as substitutes for leather in the making of some shoes used because they are cheaper, and they are nearly always hidden where the buyer cannot see or detect them.

Don't be persuaded to buy poor shoes in order to save money. Poor shoes are the most expensive in the long run.
