

NOT ON ACCOUNT OF ITS SIZE IS THIS BANK SAFE

But it has attained its present high standing by reason of being, first of all, a safe bank.

Dinner For Five

\$11.00
-.82
?

Five Middle Western farm leaders sat down to dinner in a big hotel. Modestly they ate steak, potatoes, corn, bread and butter and drank coffee—and the check was \$11. Then one of them, says

The COUNTRY GENTLEMAN

figured roughly from the day's market reports what share the farmer had got of the \$11—and the answer was 82 cents! And still some folks say the farmer is a profiteer!

First, last and all the time THE COUNTRY GENTLEMAN stands for a living profit for the farmer. Its articles are aimed at better and more economical methods in cropping; at more scientific breeding and feeding of animals; at greater use of tractors and other labor-saving machinery; at more efficient market-

ing. In other words, the chief aim of THE COUNTRY GENTLEMAN is to help the farmer to make more money—to get more of the consumer's dollar—to get more than 82 cents out of an \$11 dinner. One dollar that you spend for a year's subscription may save you a hundred dollars or more. Why delay longer?

COLUMBIA NEWS NOTES

SPECIAL CORRESPONDENCE

Miss Laura Phipps very pleasantly entertained about 20 young people at her home on Wednesday evening at a Halloween party.

Mr. and Mrs. Whittaker, who visited at the home of their daughter, Mrs. W. A. Leathers, since Saturday of last week, returned to their home in Pendleton Thursday.

Wilma Waugaman and Gladys Whitsett represented Columbia District in the bread making contest at the Dairy Show, and Miss Laura Phipps won first prize for the Hermiston school.

Ray Fisher left last night for California. He expects to be away three months.

The Neighborhood Club of Columbia District will meet at the home of Mrs. J. Udey Wednesday of next week. The members are requested to bring their thimbles.

BOARDMAN NEWS

SPECIAL CORRESPONDENCE

Work on the new school building is progressing rapidly, and it is hoped to have it completed by the first of the year. Dedication plans include a two or three day celebration and extension school, with several prominent educators in attendance.

Several new pupils enrolled last week, and the census shows a large increase over last year.

Mr. and Mrs. J. C. Ballenger were in Portland several days this week locating new equipment for their hardware store.

Several new houses are in course of construction, lots are being leveled, and a railroad siding is being put in. Also E. P. Dodd, owner of the Boardman townsite, is building an office on Main street.

Vocal guidance work is being taken up by lectures to the high school by Prin. M. B. Signs on the choosing of a vocation.

The big sale of milk cows last Monday brought every one within reach to Boardman, and as a result there has been dispersed throughout the West Extension the foundation of a strong milking herd of Jerseys.

The Parent-Teachers' Association met Oct. 24, at which time a secretary, Mrs. J. S. Johnson, was elected to take the place of Mrs. Burns, who has removed from the district. A committee consisting of Mesdames Klitz, Blayden and Cummins was appointed for school visitation during the coming month. Other matters taken up were improvement of the school grounds and plans for serving hot lunch as soon as the domestic science department is finished.

HIGH SCHOOL NOTES

The Freshman class had a party Friday night of last week at the home of Miss Zona Bensele.

The Hermiston canning team, consisting of Miss Clarice Watson, Miss Marie Casserly and Miss Jane Gunn, won first place in the canning contest held during the Dairy and Hog Show.

The stock judging contest held during the Dairy Show was won by the Hermiston high school team, consisting of Miss Dorothy Briggs, James Hall and Claud Whitsett.

At the request of Supt. A. C. Voelker, Rev. Father Killian addressed the pupils of the higher grades and the members of the high school Friday morning of last week. He is leaving the community sometime in the near future, and the students were pleased to have him address them before his departure.

The students of the high school have invested in a supply of new song books, as there were so few of the old ones left.

A meeting was held at the library last Wednesday afternoon for the purpose of organizing a class of high school girls in nursing. The course comprises 15 lessons, to be given weekly on Wednesday afternoon.

GRADE SCHOOL

Miss Buelah Scott, teacher of the second grade, was taken to Pendleton last week to be operated on for a severe case of appendicitis. It is reported that the operation was successful and she is doing nicely. She will be brought back to Hermiston this week end, although she will not be able to be in school for some time. During her absence Mrs. Lloyd is teaching the children.

There are a great number of children absent from each room on account of the epidemic of chicken pox, but none of them seem to be very sick.

Miss Sholin and her pupils of the fifth grade spent a very enjoyable time Friday afternoon at a Halloween party held in the class room at school.

Will Distribute Seeds

Congressman Nick Sinnott has requested The Herald to assist him in making distribution of the vegetable seeds allotted to his district. The department of agriculture has, he says in his letter, allotted to each member of congress a number of packages sufficient to give a package to only one in eight or ten persons in his district. This causes him to be particularly desirous that what seeds he has available should get into the hands of those constituents who desire them and can use them to the best advantage. He is of the opinion that this can be done better through the papers in his district than in any other way.

Announcement will be made in these columns when the seeds arrive, which should be soon after the first of the coming year.

IF YOU HAVE MANURE

You cannot afford to be without a Litchfield Manure Spreader

There are more LITCHFIELD SPREADERS on the project than the combined total of all other makes.

THERE IS A REASON.

Let us demonstrate what these will do to save labor and then ask the experiment station what manure means to even alfalfa fields, saying nothing of it's value in the garden, corn and potato patch.
