In this edition of the paper The Peoples Warehouse of Pendleton is advertising a new and novel feature connected with its Big Store. It is this: The first time, or original effort, to completely clean up some other one department by the use of the Bargain Basement. This advertisement announces the complete cleaning up of its Woman's Department, from which it has taken all held over garments and sent the whole thing (\$7800) to the Bargain Basement, where its "Year-End" or Clean-Up Sale will take place—and from what we know in the past, the whole lot will be cleaned up in short order, for down in the Basement they sure know how to slash the prices. ad

Heat Your Entire House From One Register

SIMPLE - WARM - COMFORTABLE

Just this one large register. The hot air comes up through the center circle and the cold air goes down the other compartment between the circle and the border. It's right over the Quaker Pipeless Furnace.
More heat—and just where you want it—always ready. To warm that cold room, just open the door. The

Quaker Pipeless Furnace

has no pipes, no bulky cold air returns. Your walls are not torn up, no cellar is too small.
Will burn any fuel. Particularly adapted to soft coal. Special humidifier keeps the air always moist.
The furnace is built of heavy boiler plate steel, no cemented joints to leak gas dust or soot. Fire not lined with high test fire brick, capable of withstanding 2000 degrees of heat. An abundance of clean, pure warm air sent to every room. Simpler than a stove to operate, cleaner, more saving of fuel, and much more healthful.
Sends heat to every room in the house. Ventilates as well as heats. Changes and purifies the air to every room. Keeps the cellar cool for fruit and vegetable storage.
