

The dangerous stone bruise

BRUISES mean broken inner fabric, and broken fabric means blowouts—the ruination of more tires than all other causes combined.

Frequently bruises result from under-inflation, but too often they are due to faulty construction and to the shortcomings of ordinary rubber and fabric.

Two years ago the Thermoid chemists discovered *Crocid*, which is compounded with Up River Fine Para rubber in four definite ratios:

You can't pull the tread off a Thermoid Tire

- 2-for the cushion inside or below the breaker strip
- 3-for the intermediate bond between the breaker strip and tread
- 4-for the tread of the tire

This process adds strength and elasticity to the fabric and rubber and has done much in combating the stone bruise, tread blowouts, and all common evils that make tires short lived.

One Thermoid *Crocid* Compound Tire will prove this to you. You take no risk, for this tire is sold on a basis of 6000 miles of guaranteed service (Ford sizes 7500 miles).

BOARDMAN NEWS

J. C. Ballenger is building an addition 14x24 onto his handsome bungalow on Newell avenue and Heppner street in Boardman.

Banker Swayze and E. F. Dodd were Hermiston people that visited Boardman last Saturday, making the trip to that hustling town by auto.

Mr. and Mrs. William Finnell returned last Saturday from a short visit to Arlington. Mr. Finnell is

the genial bookkeeper and assistant manager in the offices of the Boardman Lumber Co.

D. E. Harper, yard manager for the Boardman Lumber Co., passed a few hours in Arlington between trains last Saturday transacting business.

Dau Rancier and Vernon Crawford were Hermiston business visitors from Boardman Thursday.

Dr. Freeze makes regular visits to Hermiston. Consult him free and be assured of good eye service. 36
