### CHEAP HAY FOR SALE

I have six grades of hay that I will sell at the stacks at the following prices:

Strictly stack tops, per ton	\$ 5.00
Better grade, but some musty, per ton	7.50
Still better, per ton	12.00
Good, but too tough for milling, per ton	17.00
First class, first cutting, but browned, per ton	20.00
Strictly first class, per ton	23.00

I can particularly recommend the browned hay. It is clean, first cutting and has retained all food qualities, but off color. Stock prefer it; feeders and dairymen know the kind.

## The Best Machinery Investment You Can Make

Ask any user of the John Deere Spreader, and he will tell you it is the best machinery investment he ever made—not only because it saves hard work and valuable time, but because it makes every forkful of manure count for a bigger crop yield.

Manure goes farther and does more good when you use a John Deere Spreader. You can spread manure evenly, heavy or light—no

under-fertilized or over-fertilized spots.

Come in and see this spreader. We want to show you why it will do better work, why it will last longer than others, why it will cost less for repairs, and why it is easier to load and operate.

Mounting the beater on the axle of the John Deere gives you a combination of advantages you can't get in any other spreader.

Come in and know the reasons why there are so many satisfied users of John Deere Spreaders.
