"Blowouts" A new Rubber compound that resists them

TWO years of road tests have demonstrated the Thermoid Crolide Compound Tire to be remarkably resistant to blowouts.

This result is not accidental. It is the Thermoid Chemists' answer to this most common of all tire weaknesses.

A new rubber compound

Crolide, the new substance developed in the Thermoid Laboratories is com-

pounded with Up River Fine Para. It is blended not only with the rubber that goes into the tread, but with each layer of the rubber treated fabric.

One Thermoid Crolide Compound Tire will prove to you its resistance to the attacks of oil, water, heat and similar agencies which weaken tires and lead to blowouts. Guaranteed 6000 miles (Ford size 7500).

You can't pull the tread off a Thermoid Tire.

Millinery School

The following information will be of interest to local women concerning the Millinery School, which is to be held May 4, 6 and 8 at the library. The school begins each day at 10 a. m.

Miss Doolittle, who is the instructor, will have wire, milliners' needles, shellac, materials to clean feathers and ribbons, oil paints to retint flowers, also buckram. She will give instructions on renovation chiefly, such as cleaning and bleaching various kinds of white hats, such as leghorn, milan, etc. She will help the women with facings and trimmings, but it will be necessary for the women to bring their own flowers, ribbons, thread and thimbles. There will be no charge for instructions, but a small fee will be charged to cover the cost of materials that the women use.

Each woman who brings a hat to renovate should also bring a small scrub brush, a nail or tooth brush and a small dish or bowl in which to put the material she is using for renovating.

J. A. Murray, district manager of the Pacific Telephone & Telegraph Co., was in Hermiston Wednesday on business connected with the local office.

COLUMBIA NEWS NOTES

SPECIAL CORRESPONDENCE

A sudden change in the weather the fore part of the week, when the thermometer reached 80 degrees on Monday, rather pleased alfalfa growers of the community. Irrigation has now started, the A line being far enough advanced in the work. Some water has been furnished, and a full head will be available the latter part of the week.

The crew of men that have been working on the A line has been transferred to the drain ditch on the lower Cold Springs canyon, and the work there will be completed in a few days.

Teddy Stewart, who joined the navy last September and was sent to San Francisco to a training station, is reported to have received a promotion. Taken from the bugle squad, he was made battalion bugler, and as is customary in the service was placed on the honor roll for good improvement, and a report sent to his parents, Mr. and Mrs. Tom Stewart from Washington.

Mrs. Anna Sapper and sister Mrs. Mary Witter are visiting at the home of Otto Sapper in Hermiston.

Columbia school made a very creditable showing at the track meet held at Echo last Saturday. The following won prizes: Claude Haddock, Sherlock Stockard, Maude and Florence Hannan, Gertrude Hall and Gwendoline LaBarre. The first two won in three different entries.

Don Parker has accepted the position of ditch rider for the east end. The making of dress forms by Miss May Harmon, which will be the last for the season, was in progress at the home of Mrs. Geo. Hedlow last Saturday. Luncheon was served at the home of Mrs. Anna Sapper for the party and a pleasant hour spent, after which the work was resumed.

On account of the millinery school to be held in Hermiston next week there will be no meeting of the Neighborhood Club. The time of the next meeting will be in these columns next week.

TAKEN UP

Notice is hereby given that the undersigned has taken up and holds at the Leathers ranch, four miles east of Hermiston the following described animals:

One brown mare, age about six years; no visible brands.
One black cow and two yearling heifers; brands not discernible.

The above animals will be sold at public auction to the highest bidder for cash in hand on the 17th day of May, 1920, at 10 a. m., at the above named ranch, unless redeemed by owner.
May 1-8. W. A. Leathers.

The house across the way

Beautifully attractive, isn't it? And yet no need for you to be envious. Beauty in a house is largely a matter of good painting. A coat of B-H Paint will work wonders in the appearance of your home, and in addition will add years to its life.

Bass-Hueter is synonymous with the highest achievement in the manufacture of paints, varnishes, enamels—in fact preparations for every painting purpose—inside the house or out.

Let us know your painting problems, and we will gladly solve them for you. Also we can supply you with brushes and other necessities.
