McCormick Deering International P&O

YOU know these trade names. Your father and grandfather knew most of them. They knew in their time and you know today, through long usage and satisfactory service, that there are no better farm machines and implements made than those bearing the above trade names, which are guarantees of high quality.

And now these time-honored, service-renowned lines have been merged into one—the International Harvester—representing the cream of the farm machine world. And—

We Sell the International Line

which includes:

What does this mean to you as a Farmer?

IT MEANS, first of all, that you can buy any machine or implement you may need from one concern—us—without taking chances on experiments or implements that might be orphaned one or two years after you buy them because of the manufacturer going out of business. You can always get repairs for any machine or implement in the International line, because the Harvester Company will never go out of business.

AND you don't have to go to the bother and expense of trying to get repairs and repair service from half a dozen or more different companies. You won't be taking chances on expensive delays waiting for repairs during the busy season, because we are going to carry a big stock of repairs on hand, and any extras that we might not have on hand at any time can be secured in a hurry by a phone call to the International Harvester branch house.

Tack this advertisement up in your machine shed, so that whenever you need repairs for any of your International machines you will know, without wasting time, where to go for GENUINE INTERNATIONAL REPAIRS. We handle repairs for the complete International line. Also, you will know where to go when you are in the market for new machines and implements of real quality.

TO THE VOTERS OF UMUTILLA COUNTY
In asking your support for the Republican nomination for County

Judge, I desire to say that I have lived at Pilot Rock for the past five years. I have had two years previous experience in the county judge's office in another state, before coming to Oregon. I am now practicing law at Pilot Rock and am interested in farming in Pilot Rock community. I am the only candidate from the south part of the county. If nominated and elected county judge I promise you economy and a square

deal for all parts of the county. I feel that my previous experience in the office has fitted me to give you a business like administration and if you see fit to give me your votes I shall, if elected, attend to the duties thereof to the best of my ability. If you desire to vote for me, place an X between No. 70 and my name on your ballot.
Respectfully,
I. M. Schanep.

Our Congressman

What does he think of the farmer? Was he ever a farmer himself? Does he care more for free seeds for city folks than for county agents for farm folks? Is he for the farmers, now that he's elected, or has he forgotten them?

The COUNTRY GENTLEMAN

has been hunting up the farmers in Congress—and, let me tell you, it's like hunting for a needle in a haystack. At any rate, it is finding out who are the farmers' friends, and that's something to know.

In the issue of THE COUNTRY GENTLEMAN that will be out next week there's a big article called "How Congressmen Vote." I wish you'd read it—it sure is an eye-opener. There's an election coming on, and the farmers should know who are their friends in Washington. THE COUNTRY GENTLEMAN will keep you posted if you read it every week and follow its Washington dispatches. . . . Best way to get them is by subscribing. Comes right to your mail box 52 times a year—a great, big farm weekly, full of fine, friendly articles.

And it Costs Only \$1.00 for a Whole Year
