DEMONSTRATION

SATURDAY, JUNE 26

On above date we will give a demonstration of

ICELESS REFRIGERATORS

We don't mean a cooler but a real refrigerator without the use of ice. We will show how it keeps vegetables, meats, butter, milk or water as well or better than an ice refrigerator and yet without the use of a pound of ice.

Come in Saturday, June 26

and be convinced that you can keep anything usually kept in an ice refrigerator just as well without buying ice each day and having the bother of drainage or mold that are the pests when using an ice refrigerator.

We also carry ice refrigerators for those who insist on owning them. See our stock
